About Us

Modern Auto Plast is established with a high level of innovation in the year 1997. Here, we design and develop the different range of automobiles mirrors such as Automobile Inside Mirrors and Automobile Side Mirrors. They are used in various vehicles like trucks, buses, motorcycle, and different cars. We design these mirrors under the standard guidelines and norms created by our company. They are specially designed in exact dimensions to offer the clear view which allows the driver to see rearward. We select and utilize high quality of raw materials for designing of automobiles mirrors which results in reliability, high performance and durability at customers end.

With a varied portfolio of manufacturing capabilities, we produce the different variety of high-quality products for the automobile industry. With our intellect approaches and advanced methods, we are offering innovation in the rear view. Our products like interior and exteriors mirrors offer a perfect vision to maximize safety and comfort. Together with innovation and intelligence automobile mirror offers following benefits:
