About Us

These days FRP (Fiber Glass Reinforced Plastics) has a great utility in industries, commercial and domestic projects. It is because of its excellent properties and cost-effectiveness. Fibre-reinforced plastics are well-matched for any design and construction program that need precision engineering, weight savings, finite tolerances and simplification of both the production and operation. They are economical, faster and easier to manufacture than cast aluminum or steel object etc. Also maintains similar tolerance and material strength.

At Mantra Composites, we cater to such needs of clients with our quality range of products. It includes FRP Portable Toilet, Security Cabin, Cooling Tower, and Solar Street Light etc. We are manufacturing these products for Construction, Chemical, Electrical, Agriculture, and other Industries. With our diversified products, we are able to develop new concepts for customers unique needs. Also, we work with new, effective technologies to serve our customers effectively. Our philosophy is to bring technically good, affordable and reliable products that suit clients jobs perfectly. We show trustworthiness to all our customers, employees, suppliers and others.
