

Desiccant Activated Alumina
& Activated Alumina Adsorbent

12% Potassium Permanganate impregnated, 13 X Molecular sieve, 3A Molecular sieve, 4A Molecular sieve, 5A Molecular sieve, 8% Potassium Permanganate impregnated, AA KMnO₄ 4% Potassium Permanganate impregnated, Activated Alumina, Activated Alumina Adsorbent, Activated Alumina Balls, Activated Alumina Desiccant Grade, Activated Alumina Fluoride Removal Grade, Adsorbent Activated Alumina, Adsorbent Container Desiccant, Black Carbon Molecular Sieves, etc.

**CHROMATOGRAPHY GRADE SILICA
GEL**

SILICA GEL

SILICA GEL BLUE

About Us

With an industrial experience of more than 50 years, we have been engaged in offering Adsorbents & Desiccants as such Silica gel, Activated Alumina, Molecular Sieves, Molecular Sieve Desiccants, Silica gel orange, blue & white, Silica gel for chromatography adsorbents, which are Formulated using highest quality grades of ingredients which are widely acknowledged for industry relevant and effectiveness. Empowered with sound manufacturing facilities and experienced workforce we are able to offer these chemicals as per the defined quality standards and specific process based requirements of our customers. An intelligent solutions to complex moisture problems our range finds application in several industries such as automotive, aerospace and aviation petroleum refining and pharmaceuticals.

Patalia Chem Industries is a sole proprietorship firm, which was established in 1969, as a manufacturer, supplier and exporter company. We are engaged in formulating and processing Desiccant Chemicals. These chemicals include Silica Gel, Activated Alumina, Molecular Sieve, Ceramic balls and Colloidal Silica of various grades and quality. Our products are highly pure, effective, least toxic, have stable pH and environment friendly. We are one of the leading exporters of Bulk adsorbents like Desiccant Silica gel white and blue, Molecular Sieve and Activated Alumina from India.

Key Facts

Nature of Business	Manufacturer
Primary Competitive Advantages	silica gel crystals,ceramic fibre rope,ceramic fibre module,ceramic fibre bulk,ceramic fibre board,ceramic fibre blankets,molecular seives,colloidal silica,silica gel bead,silica gel balls
No of Staff	20
Year of Establishment	1969
OEM Service Provided	No
Memberships	JFOA, MPSIA, CHAMBERS OF COMMERCE
ProductRange	silica gel crystals,ceramic fibre rope,ceramic fibre module,ceramic fibre bulk,ceramic fibre board,ceramic fibre blankets,molecular seives,colloidal silica,silica gel bead,silica gel balls

Our Products

Molecular Sieves

AA KMnO4 4% Potassium

Molecular Sieves 3a

Molecular Sieves 4a

Molecular Sieves 5a

Molecular Sieves TYPE 13X

Adsorbent Activated Alumina

Desiccant Activated Alumina

White Silica Gel BEADS

Silica Gel Packets

Activated Alumina Balls

Activated Alumina Flouride Removal

Activated Alumina

Activated Alumina Adsorbent

Molecular Sieves Pellets

Silica Gel White
