

CALCIUM CHLORIDE FUSED LUMPS & AMMONIUM SULPHATE

Never Breaking Your Trust Is Our Speciality

Ammonium Sulphate, Basic Chromium Sulphate, Calcium Chloride Fused Lumps, Ferrous Sulphate, Magnesium Sulphate Heptahydrate, Sodium Acetate Trihydrate, Sodium Nitrite, Zinc Sulphate, etc.

AMMONIUM SULPHATE

SODIUM ACETATE TRIHYDRATE

**MAGNESIUM SULPHATE
HEPTAHYDRATE**

About Us

With a market value of US\$ 178 billion in 2018-19, the Indian chemicals sector has become one of the biggest sectors, which includes more than 80,000 commercial goods. The industry is anticipated to expand at a 9.3% CAGR to reach US\$ 304 billion by 2025, driven by increased end-user demand for specialty chemicals and petrochemicals. To cater to this rising demand, we set up our entity in the year 2003 as manufacturer and supplier of Agriculture Grade Calcium Chlorid, Ammonium sulphate, Basic Chromium Sulphate, Sodium Acetate Trihydrate, Sodium Nitrite and other chemical products. These products are manufactured while adhering to the international quality standards with the help of our manufacturing division. Our products are used in several industries including leather, textile, chemical, pharmaceutical and many more. Our products are recognised in the market for their purity, excellent chemical composition and pricing. To make sure that our organization has access to the best raw chemical material, we have established a large supply chain management system which maintains a solid flow of raw materials within our company.

With a dedicated warehousing facility, we have nurtured the capability to store and retrieve bulk orders of the products. This facility is kept clean and organized in order to safely store our chemical products. Our warehousing facility is equipped with the best material handling equipment and inventory management software. Also, this warehousing facility is supervised by a digital warehousing monitoring system which allows us to keep a careful eye on the operations taking place in our warehouse.

With the aim of gaining a recognition in the Indian chemical industry, Aagam Chemicals started its journey as a trusted supplier of chemical products. The journey was started in 2003, we began operating as a manufacturer and supplier of Agriculture Grade Calcium Chlorid, Ammonium sulphate, Basic Chromium Sulphate, Sodium Acetate Trihydrate, Sodium Nitrite and other products. Since then, we have been attaining excellent growth and now holding a stand among the top companies.

Key Facts

No of Staff	3
