About Us

We, Arpit Enterprises, are more than just manufacturers of power cords; we are innovators committed to powering connections that drive progress. With an unwavering commitment to quality, safety, and dependability, we manufacture power cords that are essential to a vast number of gadgets and systems. Our goal is to transform the way power is used and distributed. We are happy to state that today, we lead the industry and create new benchmarks with every cord we make. Every step of our process, from carefully selecting the best materials to using state-of-the-art manufacturing methods, is driven by a passion for quality. At the heart of our ethos lies a deep understanding of the vital role power cords play in facilitating seamless connectivity in an increasingly interconnected world.

We are a customer-focused company that push all its limits to make its buyers happy. We not just deliver them quality products but also treat them with respect and maintain complete transparency. This approach to conduct business deals have enabled us to stand out in the market and earn loyalty of our clients. We will continue to run our business following client-focused approach, thereby making the happy.
