

qLabs® PT-INR Monitoring System

for Professional Point of Care
and Patient Self-Testing

MICROPOINT

qLabs® PT-INR Monitoring System

for Professional Point of Care
and Patient Self-Testing

REF number

QS-1-12	Self-testing	12 strips/box
QS-1-24	Self-testing	24 strips/box
QS-1-24 Pro	Professional	24 strips/box
QS-1-48 Pro	Professional	48 strips/box
QS-2 Pro	Professional (Owren)	24 strips/box
QS-2-12	Self-testing (Owren)	12 strips/box
QS-2-24	Self-testing (Owren)	24 strips/box

Features

- Individually wrapped
- On board quality controls
- Dry-reagent strips stored at room temperature for immediate use, no equilibration required
- High Isolation between channels for high precision
- Strong correlation to central laboratory results
- Built in communication port for a printer and connectivity software
- LOW ISI as recommended by ACCP, CAP, and WHO

Sample Type

- Fingertip whole blood
- Fresh venous whole blood

Sample Volume

- 10 µL

Time to Results

- Reliable PT-INR results in 30 -100 seconds

CV (%)

- <5%

Hematocrit Range

- 30% to 55%

qLabs® PT-INR test shows strong correlation with the Stago STA® NEOPLASTINE® CI PT-INR test. The correlation coefficient is 0.96 with an intercept of -0.08 and slope of 1.004.

ABOUT MICROPPOINT

Micropoint Biotechnologies Co., Ltd. is a global provider of Point of Care Testing (POCT) systems and solutions. We are improving patient care by providing rapid, accurate, reliable, and low cost diagnostic products. Micropoint's patented microfluidic technologies and three proprietary POCT platforms enable testing at the same high quality level as a central lab, but with improved speed and convenience. Micropoint's products are manufactured in cGMP and ISO 13485 certified facilities.
