Product Showcase

Our Corporate Philosophy and Mission

To be a good corporate citizen by scaling the heights of excellence in providing value-for-money products to customers with a thrust on service and faith in people.

Countrywide network with strategically located offices.
Comprehensive product range.
Cost-effective solutions for all infrastructure projects.
In-house product specialists.
High service standards.
Client-focused solutions and teamwork.

Our corporate philosophy, "Quality, Value and Service", is far more than a mission statement adorning a wall. It is a living culture at Lawrence & Mayo, a goal that is nurtured and put into action by every employee, every day.

Since the essence of all development is constant growth and progress, we create an atmosphere where our people can innovate and function to their full capacity. Our in-house training facilities for our managers and team members keep them in touch with the latest trends and developments in the business. Our people are periodically trained at various renowned centers in India and abroad.

With a wealth of expertise acquired over the course of a century, Lawrence & Mayo along with its Technical Development Service Centers (TDSC), pursues its ultimate goal of excellence in design and innovation. Our commitment to our corporate philosophy has led our customers to accept our perfection as tradition, in fact to demand it, in their dealings with us.

With a wide network of strategically located branches and customer relationships based on a rock solid foundation of trust, the organisation today stands strong, balanced and poised to meet the needs of a rapidly growing Indian market for precision instruments.

Our prolific past of over 140 event-filled years of pioneering work and many breakthrough achievements makes us aware of the necessity of raising our sights of building for the future, as we aspire to fulfill the demands of our nation's aspirations.

Be it in the field of all development projects like construction, infrastructure, management of water resources, environmental monitoring, and supporting alternative energy progress.

Also meeting the needs of research and quality control laboratories of the private and public sectors.

EARTH

EARTH EAR TO THE GROUND

Surveying Instruments and Land Surveying Drones

- Designed and manufactured with state-of-the-art technology
- Used for various projects (measurement of earth and soil quality) in infrastructure and construction industry
- Guaranteed, accuracy, precision, and durability

Fully Automatic CTM

Semi Automatic CTM

Rockwell Hardness Tester

LYNX Total Station LTS-4

Agricultural Land Survey Drone

WATER

WATER

TESTING THE WATERS

Weather Station

- Meteorological instruments to study the weather conditions
- Used to measure parameters such as wind direction, rainfall, temperature, humidity, etc., for collecting accurate weather data
- Placed outdoors as a suite of sensors to get a complete picture of the weather

Soil Moisture Meter

3554 WDI Digital Rain Gauge

Rain Station

Drone Spraying Pesticide on Wheat Field

LIFE

HUMAN, ANIMAL, WATER AND LIFE

Analytical and Scientific Instruments

- Wide variety of microscopes for training and routine tasks, to high-end system solutions in life science and research applications
- Superb image quality, high-quality cameras, optics and associated accessories
- Helping save/extend human life by fighting chronic diseases
- Lawrence & Mayo is committed to enhancing the quality of life by striving for a disease-free world across human life, animal life, and ocean life
- Saving lives, extending life, and advancing toward a future free from diseases by discovering lasting solutions and permanent cures

SPACE

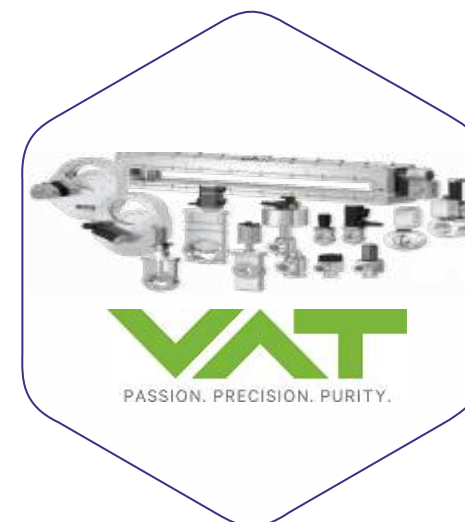

EMPOWERING VACUUM AND TRAINING TECHNOLOGY

Vacuum Equipment and Systems

- We help the world to sustain (Space conditions) Vacuum using VAT high-performance UHV and HV vacuum valves
- We help the world to create a clean vacuum using Unozawa multi-stage roots dry vacuum pumps
- Logitech is a world leader in semiconductor materials processing, specialise in the manufacture of precision lapping & polishing equipment

Vocational Training Equipments

- Manufacture of refrigeration and air conditioning equipment
- Heat Transfer Lab to determine total thermal resistance and thermal conductivity of composite wall
- Undertaking people skilling and enriching lives
