About Us

Nanda Roofing Solutions is a trusted manufacturer and supplier based in India, committed to delivering high-quality structural and industrial materials to a wide range of sectors. Our diverse product portfolio includes MIG Wire, MS Angles and Channels, MS Pipes, and MS Plates, etc., each crafted with precision and durability to meet the demanding needs of construction, fabrication, and industrial applications. With a strong emphasis on quality, we use premium-grade raw materials and advanced manufacturing techniques to ensure our products meet industry standards and client expectations.

Since our establishment, we have earned a reputation for reliability, timely delivery, and customer-focused service. Our well-equipped infrastructure, skilled workforce, and streamlined operations allow us to maintain consistency in product quality and service efficiency. At Nanda Roofing Solutions, we believe in building long-term relationships by offering competitive pricing, ethical business practices, and personalized support. Our commitment to excellence and continuous improvement drives us to innovate and adapt to evolving market demands, making us a preferred choice for clients across India seeking dependable roofing and structural material solutions.
