About Us

Meet Engineering is a Partnership company that is steadily growing under the leadership of Mr. Kamlesh Patel, who possess 25 years of experience in supplying high quality Gratings as well as handling projects in Power & Energy, Oil and Gas, Petro Chemical, Solar, Civil, Fertilizer, Infrastructure and other industries. In the industry, we are famous for responsibly and sincerely performing job roles as a manufacturer, service provider, exporter and wholesaler of Insulating Gasket Kit, Platform Handrail, Pipe Support, Transformer Tank, Deflector Plate and a host of other products. All these products are designed, developed and produced under strong internal supervision of industry heads. We are famous for introducing finest Handrails, Platforms, Ladders, Circular Gratings, Anchor Flanges and more items in standard dimensions and designs.

Meet Engineering is a quality committed and customer centric business establishment that is gaining recognition in the global marketplace by introducing premium quality and cost-effective Insulating Gasket Kit, Deflector Plate, Anchor Flange, Steel Circular Gratings, Platform Handrail, and other products. We have in our clients list reputed names of the industry such as Reliance, TATA, Adani, Indian Oil and more, which speaks of our ability of developing better products and rendering the best services to companies. We are settled in Vadodara, Gujarat, India from the last 19 years and are devoted to benefit our clients with our fair business practices and honest business dealings.
