About Us

We, Transasia Petrochem Pvt. Ltd. is a 2013 established firm which have been developing new products like Industrial Lubricants, Automotive Lubricants, Dispersant Lubricants, Speciality Products, Greases & Additives, etc. by conducting varied researches of the market. All these products find their application in various industries where lubrication is required. As a manufacturer and exporter, we continuously develop new products with improved quality, efficacy and performance. Our well equipped in-house quality assurance unit has hi technology quality testing instruments for conducting varied quality tests on the products to provide clients with flawless range.

We have an ultra-modern production unit equipped with upgrade machines and sound amenities which enable smooth functioning. Our products are formulated keeping in mind the global quality norms to ensure maximum shelf life and performance. Within our premises, we have also formed storage facility for accommodating bulk quantity orders in a systematic manner. Our company is not only appreciated for on time deliveries but also for client oriented business approaches.

By exporting twenty percent of our offerings in the foreign markets; we have set up a strong foothold at global market and also achieved ISO 9001:2015 certification. We are offering Automotive Industrial Lubricants and Greases under the brand name of "ACES" and Lubricant Additives under the brand "TAP".

Our Team

Our highly skilled and talented workforce helped us attain a desired position in the market within the short span of inception. All the workers we employ are diligent, adroit and experienced in meeting the modern market trends. They have been offering value added solutions to the patrons by carrying out different market researches. In addition to this, they also attend varied seminars and sessions at regular intervals of time for enhancing their knowledge and skills.
