About Us

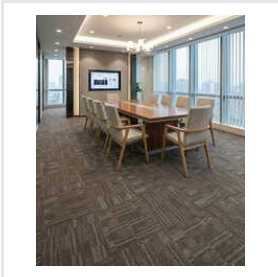

Intirio Trade And Construction Private Limited is a reputable trader, supplier, distributor, and wholesaler, and it provides carefully edited interior solutions, which transform modern spaces with style and practicality. The emphasis on modern design and functional functionality contributes to the strategy of providing goods that harmoniously connect the aesthetics and performance. The products we offer are PU flooring, soffit panels, fluted panels, charcoal louvers, PVC wall panels, and window blinds, all of which are chosen to follow the changing architectural and interior design trends. All solutions are related to the vision of designing the interiors not only visually attractive but also durable. The materials used are selected based on their resistance to moisture, wear, and durability, which make them adaptable to a wide range of environments. In residential areas where it is all about sophistication or commercial premises where it is all about reliability, each of them offers flexibility in application with reliability.

The convenience of ease of installation and low maintenance ensure quality without any compromise. The designs are designed in a way that they blend with various themes, enabling flexibility in implementation, but with sophisticated finishes. The improved insulation characteristics also add to a better level of comfort, making spaces as comfortable as they appear. A special team of professionals injects a sense of knowledge and attention to details in every interaction and makes sure that the clients get a solution that suits their needs. The company has been consistent and innovative in its pursuit of reliability and durability of operation and therefore has been able to develop a level of trust.
