| Sustainability

TRIVENI BOILER

“We proudly generate an astounding 1000+ tonnes of steam per day by harnessing the energy potential of plastic waste”

Triveni Boiler has over 20 years of expertise in the manufacturing of high quality steam boilers, thermic fluid heaters, boiler accessories, and all kinds of air pollution control equipment . Our exceptional products cater to various industries in India and around the globe. With a steadfast dedication to innovation, reliability, sustainability, and customer satisfaction, Triveni Boiler is committed to delivering cutting-edge thermal solutions that drive sustainable progress in the engineering field and provides the lowest steam cost to our customers .

Triveni Boiler : Energising steam for the future

- Range - 4 TPH to 45 TPH
- Pressure - Upto 45 kg/cm²
- Fuels
 - Paper mill plastic waste
 - Non Recyclable Plastic Waste
 - MSW, RDF
 - Agro waste
- Moisture content should be less than 35%
- Enhancing fuel versatility through dual furnace system
- Increasing the length of the grate to ensure thorough combustion of the fuel
- Employing a spacious furnace design with an ideal residence time for flue gases, facilitating efficient fuel combustion

APCM & Boiler Accessories

Air Preheater

ESP

Drop Outlet Chamber

Wet scrubber

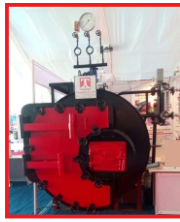

Chimney

PAC & Lime Dosing

Our innovative designs optimize fuel consumption and minimize energy waste, to reduce the cost of steam and have substantial saving over long run.

Our Clientele

Shah Paper Mills Limited

Shah paper mill

N R Agarwal Industries Limited
