About Us

Mahima Industries is a quality centric firm, commenced its business in the year 1981 with an aim to serve client requirements with best in class Material Handling and allied equipment. Owing to our enriching industry experience as well as extensive market knowledge, we have been able to attain a remarkable position in this competitive market segment. We are named among the well renowned Manufacturers, Distributors, Suppliers & Traders of Lifting and Hoisting Equipment and Material Handling Equipment. Our complete array of products comprises **Chain Slings, Lifting Chain Slings, Wire Rope Slings, Steel Wire Rpe Slings, Industrial Chains, Industrial Fasteners, Lifting Tackles, Steel Wire Rope**, and more. These are fabricated from only high grade materials/ components, under the supervision of expert production managers.

Our qualitative array is widely used in diverse industrial segments, due to their excellent attributes like high performance, longer service life, low maintenance cost, less power consuming, and cost effectiveness. We have a state of the art manufacturing unit equipped with latest technologies, and advance machines. Besides, our competent team of professionals helps us in overcoming industrial challenges with ease. They are working in a coordinated manner, with an aim to achieve maximum results in terms of productivity, quality standards, and customer satisfaction.

Quality Assurance & Infrastructure

Since the day of commencement, we have been treating quality as our prime objective. In order to maintain highest quality standards in our product range, we are undertaking stringent quality control measures at all stages of production. Also, we are backed by a team of experienced engineers and technocrats who make sure that all the **Material Handling Equipment and Lifting & Hoisting Equipment Such as Lifting Tackle, Lifting Wire Tackle, Lifting Chain Slings**, etc, are at par with latest engineering standards. The equipments are thoroughly checked on the basis of:

✧ Design and construction ✧ Performance ✧ Sturdiness ✧ Efficiency

Our organization is empowered with a modern manufacturing unit. Built across a large area, our production unit is installed with latest technology machinery and equipment. Furthermore, our infrastructure houses other departments for research & development, quality control, warehousing, packaging, administrative and sales & marketing. We upgrade all our machines at regular time interval, so as to keep pace with changing industry requirements.
