About US

We, Karma Innovations And Solutions Pvt. Ltd., are headed by Mr. Karthikeyan Jawahar, and his deep knowledge and business sense have allowed us to strengthen foothold in the market. His ideas have enabled us to attain the loyalty of esteemed buyers by delivering them advanced and unmatched Radiography Machine. In all the deals, we have exceeded the expectation of our buyers that has resulted in our reliable market image. As a manufacturer and supplier, we are dominating the respective industry on the basis of innovation, quality products and a unique working approach.

We have an upgraded and full-equipped production house that is one of the prime reasons behind our smooth working. All operations at our unit are carried out in a streamlined manner as our experts are perfectionists. With the assistance of modern premises and a strong team, we have been able to rule our customers hearts and attain many milestones.

Our company is a service provider as well from where one can avail services like Aluminium Casting Inspection, Any Brand Xray Machine Service, Ge Machine Upgrade, etc.

Our Infrastructure

Leveraging on the sophisticated infrastructural facility, we are manufacturing the best Radiography Machines. We own various upgraded production machines that reduce the work pressure of our employees and enable them to meet daily goals. We also own quality monitoring machines, which enable us to produce a defect-free array of products.

Quality Assurance

Quality is an irreplaceable factor that can help a company to survive in the market. Also, in the success of our company, quality has a major role to play. By delivering an unmatched array of products there has been an increase in the annual turnover of our company. The best suitable components are used in the production of our array that makes our offerings long-lasting and robust.
