About Us

A company that boasts great understanding of the Indian manufacturing sector, and specializes in the production and supply of Elastic Tapes, Elastic Belts, Garments Threads and Braided Elastics is Punamia Tape. We introduce different designs in these products to cater to special needs of apparel, medical and industrial sectors. From the very outset, we knew what we wanted. So, in 1980, the year we established our business, we began by investing our capital in cutting-edge technology and skilled researchers who could help us rank ahead of the competition and swiftly meet ever-evolving market demands. We then recruited a team of production personnel and quality analyzers who could unitedly work to create products in many unique designs, specific color combinations, and even bespoke products for special application. Our aim was to tap into niche markets for which we moved ahead following the guiding principles of our mentor and founder, Mr. Priyank Punamia / Mr. Ashok Punamia.

The success of Punamia Tape as an Elastic Tape and Elastic Belt manufacturer in the domestic market dates to 1980 when the company conceived its business under the dynamic headship of Mr. Priyank Punamia / Mr. Ashok Punamia. Since then, it has been successfully catering to needs of many clients from different markets of India. Not only has the company secured laurels amid tough competition in the Indian manufacturing landscape but has also empowered businesses of many other companies that have proudly associated with Punamia Tape. Today, the Mumbai, Maharashtra based enterprise stands tall in its domain with its ethical trade practices, product customization skills, and strategic partnerships.
