## About Us

Tekmec Switch Gear & Controls is dedicated to the provision of high-performance electrical control solutions for smooth functioning in a wide range of industrial applications. As a manufacturer and distributor, we offer a wide variety of products such as motor switch, control switch, cam operated rotary switch, selector switch, red LED indicator light, green LED barrel indicating light, machine tool limit switch, push button station, and others. Every product is designed with precision, ensuring reliability, durability, and maximum performance in harsh conditions.

Our products are engineered to increase the safety, efficiency, and control of industrial machinery to meet industry standards. With a wide range of products, we accommodate varying operational requirements, with compatibility for top machinery brands. With our manufacturing capabilities, we provide customized solutions based on unique specifications, and our quick order processing ensures timely availability.

Tekmec Switch Gear & Controls was founded in 2012 in Delhi, Delhi, India, with the mission to offer premium electrical control solutions. As a supplier and manufacturer, we deal in manufacturing high-quality motor switch, control switch, cam operated rotary switch, selector switch, red LED indicator light, green LED barrel indicating light, limit switch for machine tools, push button station, and so on. With more than a decade of experience in the industry, we have established ourselves with a reputation for providing quality, long-lasting, and efficient products that cater to various industrial uses. With our precision engineering, energy-efficient parts, and industry-standard safety features, our products guarantee excellence in all our product lines. We pride ourselves on being able to provide customizable solutions, same-day order processing, and expert technical assistance. Supported by a pool of talented experts, we continue to innovate and diversify our product line to address the changing demands of industries globally. Our commitment to quality, value, and customer satisfaction makes us a reliable name in the electrical control industry.
