About Us

Diamond Engineering Company, established in 1983, is a trusted name in the engineering and oil machinery sector, recognized for its commitment to quality, innovation, and customer satisfaction. Headquartered at a strategic location, the company has grown steadily over the decades, providing reliable and high performance solutions to clients across India and overseas. With deep expertise and a strong foundation, we have built its reputation as a leading manufacturer, supplier, and service provider of oil extraction and processing machinery. Our comprehensive product portfolio includes Redler Conveyor, Filter Press Machine, Oil Expeller Machine, Oil Neutralizer and Oil Pump. Each product is designed and manufactured using robust materials and advanced engineering practices to ensure durability, efficiency, and smooth functionality. We prioritize precision engineering and strict quality controls, enabling us to deliver machinery that supports maximum productivity with minimal downtime.

Our values rest on trust, integrity, and longterm relationships. Over the years, we have cultivated a customer centric approach, offering not only high quality machines but also dependable aftersales support, maintenance, and service solutions. This ensures seamless operations for our clients in sectors such as oil processing, industrial manufacturing, and related industries.
