

# Oxygen simplified

## EverFlo oxygen concentrator

The smaller, lighter EverFlo oxygen concentrator from Respironics is making a big impression on providers and patients. Its sleek, ergonomic design makes EverFlo easier to store, move, and carry than conventional concentrators. And it is one of the quietest and most energy efficient devices available today. With no filter for patients to maintain, a durable metal oxygen outlet, and fewer moving parts than other concentrators, EverFlo is designed to deliver consistent, trouble-free operation.

**PHILIPS**

**RESPIRONICS**

Molded handle that's easy to pick up and transport with one or both hands

Humidifier bottle holder compatible with all bottle styles

Internal tubing storage keeps tubing conveniently available for use

Metal cannula connector for greater durability

Recessed flow meter reduces the risk of breakage

Interface panel with on/off switch and alarm indicators
