**GURUKRUPA** started in Pune, India operations in the year 2011, We are one of the topmost Manufacturers of the best-grade Industrial Bellow Covers, Telescopic Covers, Cable Drag Chains, Apron Covers, and much more.

We understand the importance of comprehensive protection for your machinery. Our range of protective covers goes beyond standard solutions, offering customized options to shield your Machines from harsh working conditions, coolant splashes, burr, Spatters, and other potential hazards. Each cover is tailored to fit the unique specifications of your machines, providing a perfect blend of form and function.

we have been able to meet the bulk demands within the assured time frame. Our infrastructure is well-equipped with the latest machinery that is necessary for large-scale production.

As you navigate the digital landscape in search of unparalleled quality, let Gurukrupa be your guiding star. Our legacy of excellence, commitment to sustainability, and relentless pursuit of innovation converge to create a haven of luxury like no other.

**Experience the extraordinary - choose Gurukrupa, where excellence knows no bounds.**

We have our own factory  
We can control the  
delivery time and quality.

Reasonable price with  
high quality of our  
products.

Full of pre-sale service  
and after-sale service  
Packaging & Shipping

Advanced technology  
equipment

Products have been sold  
to all over the world

7\*24 hours service for  
you

## INDIA'S LEADING BELLOW COVER MANUFACTURERS

### OUR PRODUCTS

- ▶ BELLOW COVERS
- ▶ TELESCOPIC COVER
- ▶ WAY WIPERS
- ▶ SCISSOR LIFT BELLOWS
- ▶ APRON COVERS
- ▶ SPIRAL SPRING BELLOWS
- ▶ LASER CUTTING MACHINE BELLOWS
- ▶ ROLLWAY COVERS
- ▶ WELDING CURTAINS
- ▶ BULK LOADING UNLOADING BELLOWS
- ▶ METAL FLAP BELLOW
- ▶ CABLE DRAG CHAIN

## QUALITY CERTIFICATES

## Our Range Of Products

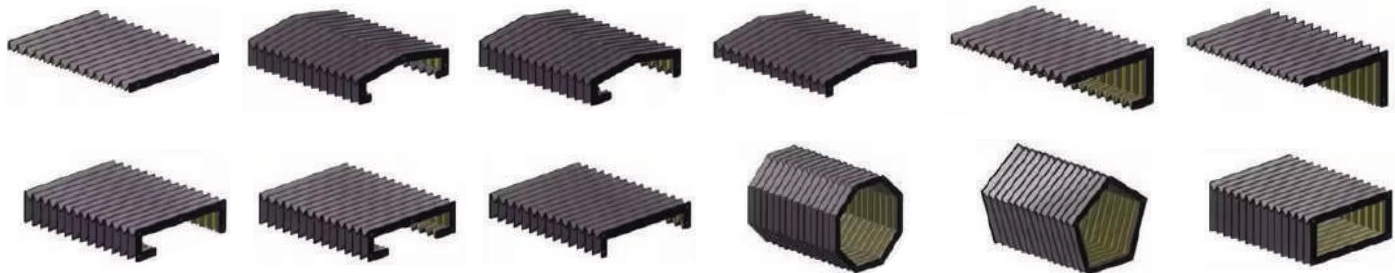

### BELLOW COVER

Bellow covers are flexible covers that protect machines and equipment from damage. They are also known as telescopic covers or protective covers. Bellows covers are commonly used in machine tools, robotics, and other precision machinery.

Designed to protect guide-ways and machine components and constructed using lightweight material, bellow covers are ideal for fast travel applications. Their high compression ratio also makes accordion way covers ideal in limited space

#### Properties

- ◆ Manufactured from superior quality synthetic materials
- ◆ Long lasting - Dustproof, Oilproof, Waterproof, Spatterproof & Fireproof
- ◆ Can withstand temperatures up to 100 C and are Resistant to all cutting oils and coolants etc.
- ◆ **Material Used:** Nylon Fabric coated with polyurethane, High Tensile Polyamide Fabric, Canvas.
- ◆ Mounting Bellows are mounted and removed easily. Split type Designs ensure the same. No costly downtime for maintenance.
- ◆ Fixing options to suit individual Machine are available.
- ◆ **Different Shapes:** Round, Square, Rectangular, Octagonal, Odd Shapes.

### SCISSOR LIFT BELLOWS

#### Specifications

- ◆ **Model:** Customization
- ◆ **Type:** Guard Shield
- ◆ **Material:** Nylon cloth & protective cloth
- ◆ **Characters:** Waterproof
- ◆ **Product type:** Armoured accordion bellow cover
- ◆ **Function:** Guide Protection

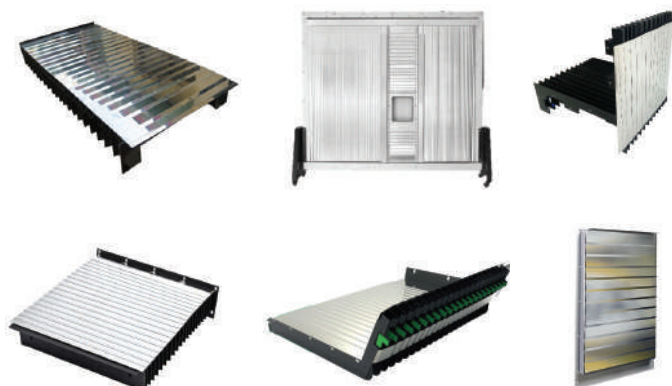

#### Features

- ◆ Less maintenance
- ◆ Flawless finish
- ◆ High tensile strength

### METAL FLAP BELLOW COVER

GE has developed steel-clad/Flap Bellows to meet special requirements. This Bellows type way cover fills the gap between telescopic steel covers and conventional bellows. Stainless Steel cladding protects the bellows against red-hot debris, sharp-edged swarf, Spatters, Hot temp & mechanical strain. It ensures a long lifespan, with low noise levels for a quiet working environment.

## Our Range Of Products

### LASER CUTTING MACHINE BELLOWS

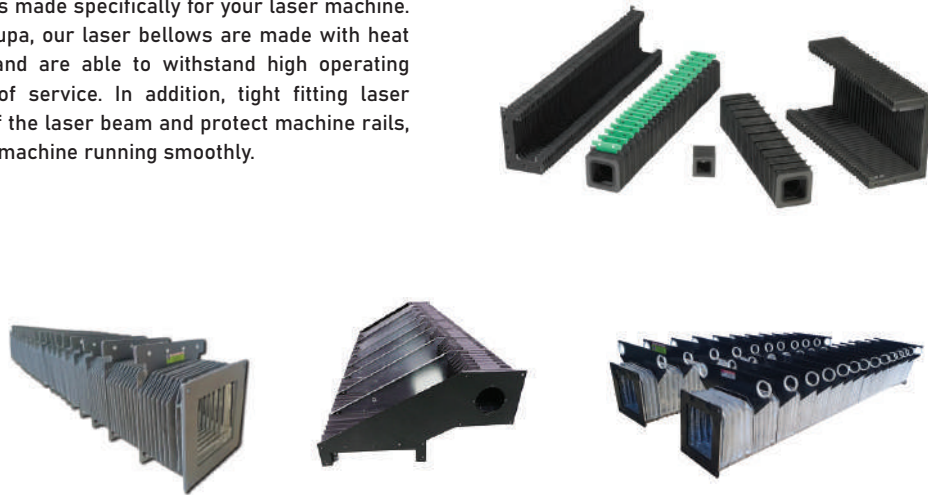

We offer Laser Cutting Machine Bellows made specifically for your laser machine. Designed and manufactured in Gurukrupa, our laser bellows are made with heat resistant, flame retardant materials and are able to withstand high operating temperatures while providing years of service. In addition, tight fitting laser bellows keep unwanted particles out of the laser beam and protect machine rails, racks and bearings, to keep your laser machine running smoothly.

#### Specifications

- ◆ Minimum Order Quantity: 1 Unit
- ◆ Brand: GE
- ◆ Color: Black, Silver
- ◆ Size: Customized

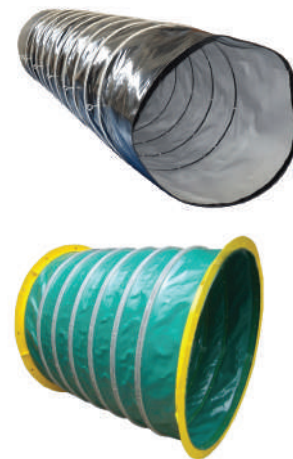

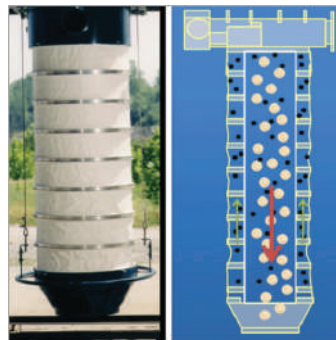

#### Features

- ◆ Smooth functionality
- ◆ Long service life
- ◆ Minimum maintenance
- ◆ Spatter Proof
- ◆ Oil Proof

### BULK LOADING / UNLOADING BELLOWS

Having rich experience and thorough understanding of the market operations, we are engaged in manufacturing and supplying a wide range of Bulk Loading Unloading Bellows. These bellows are used in various mechanical and automobile parts to protect from dust, water oil and other harmful materials. We use finest quality rubber, sourced from the most authentic vendors to manufacture the bellows. Available in different sizes and finishing, our bellows are offered at the affordable price.

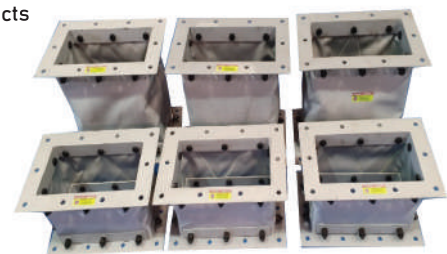

### FABRIC EXPANTION BELLOW

Offered in the market at the most reasonable rate possible, the range of Fabric Expansion Bellows is widely acclaimed and asked for. Its making involves the utilization of high-grade raw materials and modern machines, as per the set industry norms and guidelines. Owing to this, the products strength, durability, and resistance to corrosion is widely praised.

#### Other Details:

- ◆ Materials: Our Bellows are manufactured from superior quality Coated Fabric (Silicon, PU,PVC,) materials and are long lasting and it can withstand temperatures up to 100 to 1000°C and are resistant to all Hot Temperature etc.
- ◆ Mounting: Bellows are mounted and removed easily. Split type designs ensure the same. No costly downtime for maintenance.

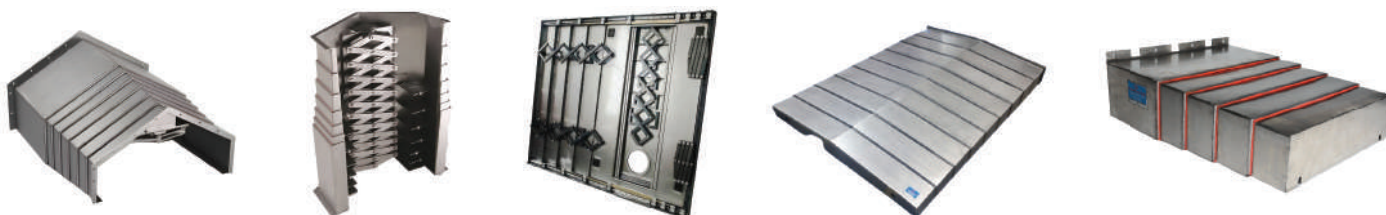

## Our Range Of Products

### TELESCOPIC COVER

We manufacture Standard telescopic covers and Custom built covers. The Covers undergo strict quality check, which enable them to increase the precision of your machines and their life.

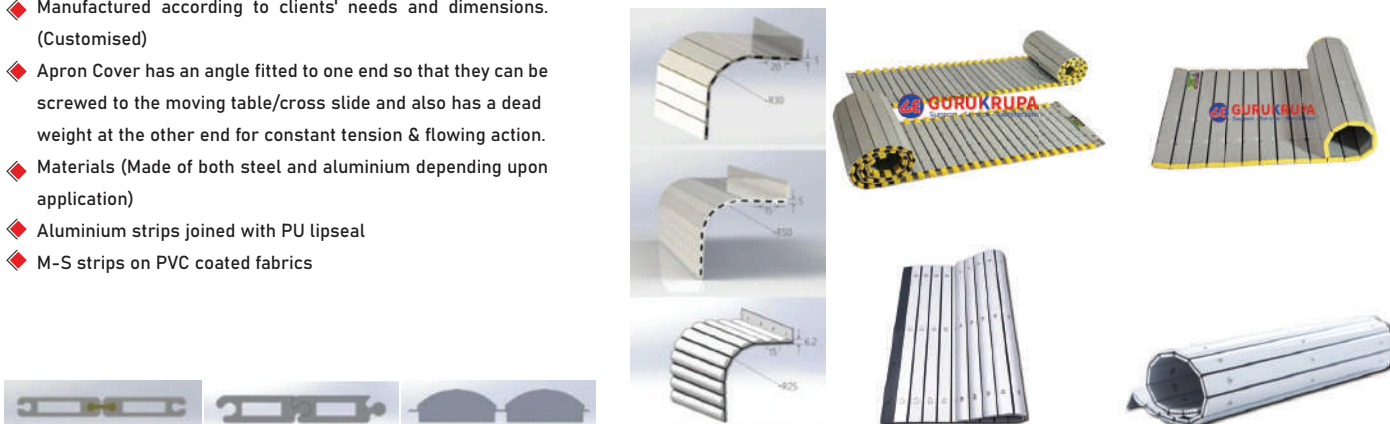

Types	Materials	Benefits	Shapes
◆ Horizontal	◆ High grade cold formed steel	◆ protect machine tool bed/guideways against any kind of damage by swarf and coolant.	◆ Customized as per the requirements (roof shape, rectangular, square tubular, etc)
◆ Vertical	◆ sheets/ stainless steel sheet	◆ Reduces machine maintenance cost.	◆ Our special designs of Telescopic Covers (available on special demand)
◆ Crossway	◆ Thickness 2mm to 3mm	◆ Well polished to enhance the appearance of your machine.	◆ Walk on type, High Speed Covers, etc.
		◆ Has a suitable wiping system.	◆ They protect Ball Screws, Columns, Spindles and Shafts and prevent the accidental risk.

### ALUMINIUM APRON COVERS

Our manufactured Apron Cover is the most suitable protective device when there is no compressed length available on machine guideways for a protective device. Our company supplies excellent aluminium Apron Covers for guideway protection in hot chip load conditions.

- ◆ Manufactured according to clients' needs and dimensions. (Customised)
- ◆ Apron Cover has an angle fitted to one end so that they can be screwed to the moving table/cross slide and also has a dead weight at the other end for constant tension & flowing action.
- ◆ Materials (Made of both steel and aluminium depending upon application)
- ◆ Aluminium strips joined with PU lipseal
- ◆ M-S strips on PVC coated fabrics

### ROLLWAY COVERS

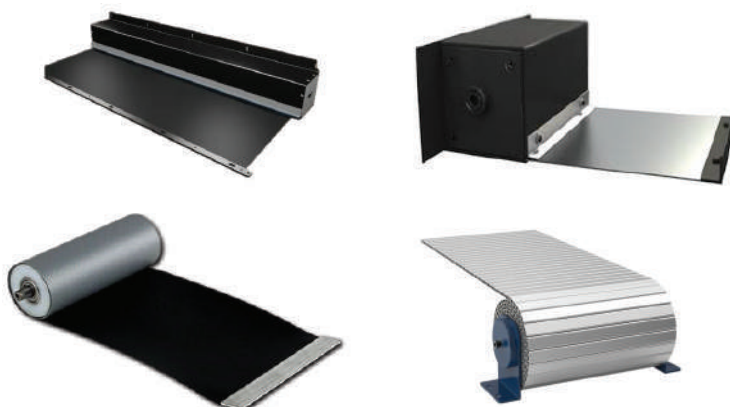

Used, as safety covers where the temperature, heavy coolant, hot chips are the main causes of damages. Rollway Covers are made from best quality steel Depending on the work environment, area of protection. Rollway Covers are manufactured from both polyurethane coated fabric and stainless steel. Rollway Covers are widely used to protect slide and guide ways of any kind of machine. These Roll-On Covers can be mounted in horizontal, and vertical for cross slide applications.

#### Advantages

- ◆ For high travel speeds
- ◆ Takes up little space
- ◆ Customized and low-cost solutions
- ◆ Easy to install and long life expectancy
- ◆ Poly urethane coated fabric and stainless steel band with or without housin

#### Materials

- ◆ P.V.C coated Nylon Fabric
- ◆ Spring Steel 0.2mm Thick

## Our Range Of Products

### WAY WIPERS

Gurukrupa offers high quality Synthetic Rubber & Polyurethane wipers with Stainless Steel casing. Wipers are designed to suit individual requirements. It can be made in different shapes & sizes. We also offer standard straight wipers with Steel casing. It can be cut and used in different sizes. They are temperature resistant up to 15000C.

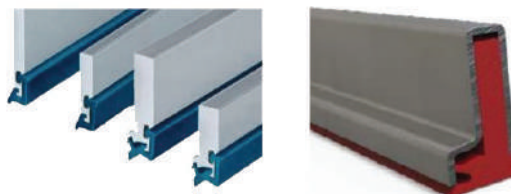

#### Aluminium Strip + Polyurethane Lip:

- ◆ These Wipers have a basic Aluminium Strip encapsulating a high quality PU LP, which provides excellent Sideway Wiping Capacity, Available in five sizes out of which three provide Lip protection from Hot Chips (They have flange overhang on the Lip)
- ◆ The aluminium strip (Frame) can be easily drilled to suit your needs.
- ◆ These Wipers are available in stock lengths of 500 mm to 1000 mm.

#### Steel Casing + Polyurethane Lip:

- ◆ These Way Wipers have total PU Lip protection due to Steel Casing (Frame)
- ◆ The Steel casing can be drilled to suit specific requirements of users & easily fitted to the moving slide/table.
- ◆ They are supplied in standard lengths of 500mm.
- ◆ We also supply Telescoping Guard Wipers suitable for various Metallic Telescopic Guides.

### SPIRAL SPRING BELLOWS

Spiral Spring Bellows that we offer are widely in demand amongst buyers around the world. The bellows that we offer are suitable to be used in any kind of factory environment for a longer time. We make use of high-quality raw materials for the fabrication of our durable Spiral Spring Bellows. Obtain from us, Spiral Spring Bellows in bulk and at the most competitive price. We ensure timely delivery as well.

### WELDING CURTAINS

GURUKRUPA can supply a wide range of welding protective products, such as welding curtains, in several standard sizes or these can be custom-made according to the client's specifications.

#### EN1598 STANDARD

All GE products have been approved according to the European EN-1598 standard and are Regularly retested and re-certified. Therefore, customers are always assured of obtaining a safe product.

#### FILTRATION

Filtration of harmful ultraviolet (UV) and blue light radiation. GE products guarantee to offer Long term filtration properties.

#### UV REFLECTION

GE welding curtains limit the reflection of UV radiation inside the welding booth.

#### RESISTANCE TO IGNITION (SELF-EXTINGUISHING)

If an GE curtain catches fire, the material will extinguish automatically after the source of the Fire has been put out/taken away.

#### Available Shades

Dark Green

Yellow

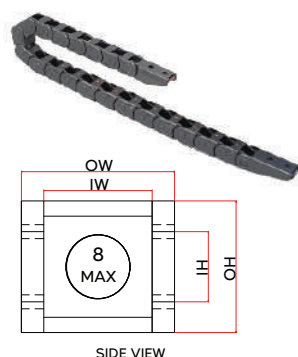

Orange

## Our Range Of Products

### CABLE DRAG CHAIN

- ◆ Cable Drag Chains are designed to guide and support movable cables/hoses and are available in plastic or steel construction.
- ◆ Both Steel and plastic chains are available in open or can be fully enclosed to ensure maximum cable protection
- ◆ Both Steel and Plastic Chains are of outstanding quality and competitively priced. They are available at short notice for replacements and breakdowns or can be supplied to meet your production schedule.
- ◆ All dimensions are in mm.
