

An ISO 9001:2015
Certified Company

Automatic Medicine vending machine with touch screen is the latest model that dispenses prescription medicine to the users. This self-service automatic vending machine is programmed to read QR coded prescriptions and dispense the medicines. Prescriptions are also printed out to the users. Patient records are maintained in the software for future identification and to continue treatment. The machine keeps track of the quantity of medicines dispensed and accountability audit is done with greater efficiency. Provided with optional cash handling system, the machine collects subsidized payments as well for the medicines dispensed in specific cases. Highly reliable automated self-service vending machine to dispense medicine anytime, cutting costs and manpower. Ideal for Hospitals, Clinics and Pharmacies.
