## About Us

Incorporated in the year 2006, Pioneer Roofing Works is a well-known manufacturer, supplier, wholesaler/distributor, trader and supplier of roofing products and pre-engineered products which are needed in roofing purpose in factories and industries. The major products we manufacture are Ventilators, Profile Sheet, Roofing Sheet, Industrial Roofing Sheet, Decking Sheet, Industrial Sheet, Polycarbonate Sheet, Trussless Curved Roof, Steel Purlin, Sandwich Panel, Curved Roof, Durashine Product and a few more. In addition, to the products we also provide Installation Services for the entire range.

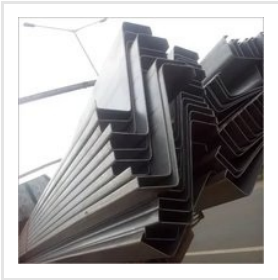

We are a sole proprietorship company, based in Kolkata from where we are supplying our products to all parts of India especially in East India. Our endeavors are supported by a team of experienced professionals having years of domain experience. They work in an integrated environment to ensure the best productions outcomes. The company gets an annual turnover of approx 50 Lakh INR and it is consistently increasing year on year. We are highly capable to deal with the demands of our clients in the market. Our products are mainly used for roofing solutions and commissioning of prefabricated structures at construction sites, warehouses, airport hangars, and various other products. The range of sheets is highly durable, resistant to climatic effects, available in wide varieties of grades, design patterns, color combination and dimensions.

Under the tactful guidance of our proprietor, Mr. Avishek Mondal, we are offering unmatched solutions to clients in various parts of the country. His ability to read the market pulse, changing trends, customer's expectations, managerial skills, capability to ensure optimum productivity and inspirational leadership has made us a trusted choice for the customers. His charismatic personality inspires the team to work at optimum best to meet the deadlines. The success of our company is largely contingent on our modern manufacturing capability. We possess the ability to enhance the productivity with our technical competence to meet the urgent or bulk requirements of the customers. The technologically advanced setup features sophisticated machinery for completing the production tasks in an efficient manner.
