BOOKS SCANNER ON RENT

COLOUR PRINTER

About Us

Essjay Infosystem Pvt Ltd aims to provide effective office machinery and technology-based solutions for organizations to undertake their work with increased productivity and efficiency. The organization is a trader, supplier, and service provider of color printers, multifunction (MFP) printers, book scanners for hire, and document scanners. Each product selected by us is made considering quality and long life, which ensures organizations can have a comfortable and smooth workflow. The range of multifunction printers in the Essjay catalogue has the backing of name brands such as Kyocera, Konica Minolta, HP, and Canon, which supports a reliable work process through faster output, straightforward operation, and secure user access. For businesses seeking a rental option, our company also offers book scanners for hire and others whereby it will provide savings through flexibility of choices and preferred longer-period terms for institutions, corporates, or service providers seeking quality performance through a lesser capital investment.

Digitization and document management are a medium of business today, whether a scanner, multifunction printer, eco technology, or connected device, and our solutions need to work seamlessly for any organisation. Regardless of whether they are a small office, an educational set-up, or a large company, our solutions are all system-service-oriented and designed to deliver constant outcomes and minimal downtime.
