We assure that all parts supplied by us are compatible and interchangeable with the corresponding original part and all critical dimensions and tolerances are in accordance. Here we strictly Follow the Government Rules & Regulations about the **(ELV, ROHS, ASBESTOS and SOC substance compliance)** with regularly Testing of Material by Third party at **Spectro labs & Bagson Labs**.

Types of Material (3.0 ~ 40.0 MM) Size is used.	Brass, Copper, PC, Steel, Acrylic, Mild Steel. Free Cutting Steel - SAE1137 SAE1213 SAE1214 SAE1146 EN15 (AM) EN1A EN1APB EN8M & Others as per requirement. MS Grades - 4.6, 4.8, 5.6, 6.8
Threads Type	Metric, UNF NPTF, UNC NPT LEFT THREADS, NPSM, ETC
Surface Finish	Electroplating - Tin / Nickel / Silver / Copper & others as required. Zinc plating - Trivalent / Yellow / White / Blue / Green & others as required.

MATERIAL INSPECTION :-

Our products developed by our experienced technical team in safe environment of company. Our quality assurance team is trained and well experienced. A Team of technically and practically Trained Work Force working 24 hours a day to fulfill the growing demand of our customers in the market, supported and guided by professionally qualified management staff. We have established separate department for final inspection. We assure that all parts supplied by us are compatible and interchangeable with the corresponding original part and all critical dimensions and tolerances are in accordance.

Infrastructure Facility

Now we have the detailed machinery for New Product Development and mass Production.
RANGE: - Ø3.0 ~ 40.0mm Round Rod & Hex is Used.

Having 40 no's Traub Lath Machine for Fine Turned

02 No's of Power Press for Sheet Metal Parts.

10 No's Of Milling Machine.

02 No's Center less Grinder.

04 No's of Thread Rolling Machine.

06 No's of Automatic Drilling Machine.

02 No's of Automatic Tapping Machine.

15 No's of Manual Drilling machine.

01 No's Pipe Threading.

03 No's of MIG welding and 01 Bragging welding Machine.

Surface Finishing, Grinder, Small Lath, Pipe Chamfering, etc.

 <p><u>Standard Procurement</u></p>	<p>We utilize high-quality product material from vendors to deliver excellence and accuracy in design and production. We offer a great variety of Turned Component according to Indian & international standards. We are committed to pursue excellence through continual improvement in all areas of business process and to distinguish ourselves by the quality, delivery and cost efficiency of products and services with the total involvement of our team.</p>
 <p><u>ISO Accreditation</u></p>	<p>We are an ISO 9001:2015 accredited, ensuring that all activities conform to the highest assurance system. As Quality is paramount, our management team is committed to complying with the requirements of ISO 9001:2015 quality standards and shall strive to continually improve the effectiveness of the quality management system. We strive to exceed valued customer expectations, by sufficing three fundamental aspects including Quality Components, Technical Expertise and Superior Service.</p>
 <p><u>Contract Manufacturing Service</u></p>	<p>For Early Product Development to large, complex system integration and assembly, the manufacturing, engineering and quality team at Amar Automats are fully equipped to help you with every stage of production. In order to preserve our legacy as the most capable and referable capital Precision Turned Components contract manufacturer in the industry today.</p>
 <p><u>Customized Approach</u></p>	<p>We employ highly experienced and knowledgeable staff which is capable of serving the needs of customers and their industry requirements and specifications. For full assurance of zero manufacturing defects, Our quality control executives personally check the products before final dispatch.
