## About Us

We, Priti Enterprises, have carved a niche in the market place as one of the prominent manufacturers and exporters that deals in an impeccable and diversified range of industrial fittings and components. In 2012, we marked our business journey with two main objectives in mind that are- to attain 100% client satisfaction and to reach on top of the ladder. By supplying matchless quality of Ss Dairy Clamps, Steel Pipe Fittings, Steel Dairy Fittings, Metal Nuts Bolts, Nut Clamps, Compression Tube Fitting, Industrial Pressure Gauge, Steel Flanges, Steel Products, Industrial Valves and allied goods, we are on our path to achieve these goals.

In construction, pipe, steel and automobile industries these products find their application. Our products are exported in international market like United States from where we have gained numerous clients. Many of our customers trust us over other companies because of our fair business deals, ethical values and integrity.

For having a smooth quality testing process we have constructed a well equipped quality monitoring unit in our factory. The industrial fittings and valves after their manufacturing are dispatched in this unit. Our quality analyzers examine well-defined industrial parameters like corrosion resistance, abrasion resistance, durability, construction, finishing etc., to know about their quality. Without having the testing process we do not dispatch the products in the market as a low-quality or defected item might lead us in losing our customers.
