

#### Why choose us?

- Quality Work
- Skilled Labour & Supervisor
- On Time Deliver
- Experience Staff
- State of Art Facility
- Client Satisfaction

#### Welcome to Maheer Technologies

We are situated in Rajkot, Gujarat which is perhaps the perfect place for innovations in the field of machines and automation. The city of Rajkot is best suited for availability of all kinds of process on all kinds of metal. We are a team of experts from mechanical and instrumentation engineering working towards the development in the field of motion control. Our experts have an experience of providing high end technological support in many motion control problems.

The aim of our company is to bring new and versetile products in the field of motion control and also bring them at economic rates for users. We are integrating the knowledge with applications and our all products are specially designed for user friendliness.

#### CNC ROUTER MACHINE: MODEL MTR1325-S

#### (FOR SOFT MATERIAL I.E. WOOD, MDF, ACRYLIC, ACP)

| Specification                              | Specification         |  |
|--|-----------------------|--|
| wo   | rk table dimensions   | 3000 x 1500 mm                               |
|  | X axis                | 2500 mm                                      |
| axis travel                                | Y axis                | 1300 mm                                      |
|  | Z axis                | 200 mm                                       |
|  | X axis                | Rack n pinion helical (Germany)              |
| axis motion transmission                   | Y axis                | Rack n pinion helical (Germany)              |
