- High Impact Engineering ABS Shell
- High Density Expandable Polystyrene Inner Shell
- Anti Allergic high sweat absorption internal lining with spacer for airflow ventilation

## EXTRA PROTECTION

The NECK GUARD is an accessory which can be easily attached to the Forma Helmet.

Forma Cricket Helmets have been designed for any possible injury to the head or the face while playing cricket, and have been rigorously tested for the same. However the back of the neck is still vulnerable to any direct hit. Use of neck guard is advised to maximize protection and prevent any such injury.
