About Us

Siddhivinayak Plastic Industries is the prominent name in Indian market which is offering a commendable range of HDPE, PVC and LDPE products. Commenced the business operations in the year **2011**, we have expertise in manufacturing a wide range of **PVC Tarpaulin, LDPE Concrete Sheet, Biofloc Tanks Tarpaulins, Silpaulin Tarpaulin, HDPE Geomembrane Sheet, HDPE Pondliner Sheet, HDPE Tarpulin, Bioflock Tanks Tarpaulins, HDPE Pond Liner Geomembrane** and various other goods. Manufactured in line with industry prevailing norms and guidelines, our products are capable in meeting international standards. Material like HDPE, LDPE, PVC, Polypropylene, etc. are used in the production process which makes our products leakage proof, sturdy, durable and high performance.

Our advance infrastructure set-up at our premise where daily business operations are executed; is segmented into several departments. The premise is integrated with advance machines and cutting-edge technology which increase the speed of our work as well as the level of perfection. On regular intervals, our facilities are upgraded by the technocrats so that we can cope up with the competitive world. Besides, our ethical trade practices and client oriented policies helped us in adding more names in our clientele.

Under the mentorship of Mr. Sunil Shah, we are waking on the path of success and achieving new milestones as a prominent manufacturer. His incredible ability to understand the market dynamics and taking decisions quickly are the major reasons behind our successful business journey.

Quality Comes First

Being a respected manufacturing firm, we believe that it is our responsibility to offer best quality products against the hard earned money of the buyers. We always put quality at the top and ensure that only superior grade LDPE Concrete Sheet, PVC Tarpaulin, Biofloc Tanks Tarpaulins, HDPE Geomembrane Sheet, Silpaulin Tarpaulin, etc. are offered in the market. A group of quality examiners are hired by the management who keeps keen observation on procurement as well as production stages.
