optimising your process

COMPANY PROFILE

Message From Director/Founder

Mr. Abhesinh.R.Dodiya

Welcome to Himalaya refrigeration industries, leading cooling products manufacturer.

It gives us immense pleasure to give and insight about our company.

Since its establishment it upholds philosophy of excellent service, professionalism and passion to serve customers which escorts increasingly and steadily progress in global market of Refrigeration Industry. The Company achieved an export turnover by way of supplies in our interested products to various countries.

Himalaya is one of the most stupendous manufacturer, supplier and exporter of many commercial & industrial refrigeration products. The company has sound backing of state of the art infrastructure at its manufacturing unit. The unit is well equipped with sophisticated machines and testing equipment specially meant for the effective production and testing of our products. As a witting corporation dignified to flourish the life with ample usage of technology, himalaya truly strains for grim improvement of its products and services offered to clients. We also give our wholehearted attempts to create himalaya a real client-centrally system.

We attribute our success to continued investment of our valued customers and partners, who stood by us over the years and who has put in their trust in us. On the other hand, our internal driving force of dedicated & specialized team members, who are working above and beyond the call of duty to drive Himalaya to next level, are certainly on an equal plane.

Management

Role of management rotates approximately the fulfilment of organizational destinations through proper allotment and optimum utilization of synergy of team members.

Maintaining the balance between victuals of core value and handling an exponential growth is the vital task for the direction team.

We believe in real time business needs that is why we give real time solutions. Our solutions are as required by current scenarios of business. Our solutions always work as per the current technologies and innovative ideas.

Our infrastructure is equipped with a cutting edge technology, which enable to engineer huge production capacity within stipulated frame of time. Our in-house production unit is equipped with all the facilities, which helps us to industry our merchandise and offer at more militant terms.

We believe that the mode of success can be achieved through delivering best quality products. Our function is to produce superior quality products for our clients. Therefore, each production stage/process is monitored and Inspected duly by highly experienced quality controllers. Finished products are tested for full functionality, reliability, efficiency and durability.

We believe in Ultimate Quality in all work we do. Our priority is to give pure quality with innovative technology which can be used in any platform of business. Our quality motto is to give 100% satisfaction for products with great after sales account management ongoing services.

Creating better products today requires much more than a product design creature. We would like to provide our products that help our customers to make full use of their powers, make accomplishment higher than expected and trade aspires while being moved and having hope in developing their products. Our quality management system covers all current industry standard methods, including machine and process capability analysis, etc.

At HIMALAYA , our product is identical with pride. Building a machine surpasses the chore task of just fulfilling production objectives and getting through the numerous inspection tests. Every product is power packed to perform in the real world before it actually leaves the virtual sphere.

The search for excellence has become part and parcel of all our employees of manufacturing department and this spirit runs across outside suppliers and after-sale support groups. Our team always has an eye for details besides taking personal pride for their work considered the two most vital attributes of assembly team. All members analyze their own work and are accountable for their performance. This attention to precise fit and functional manufacturing task delivers products of consistent quality and performance continually throughout the year.

Infrastructure & Machinery

We have developed an ultra-modern and state of art infrastructure over 5000 sqm area. Our infrastructure is equipped with all the required top notch machines and tools with built up area of 1100 sqm. For an increasing production rate and reliable operation execution, we have divided it into various operational units. Each and every department is handled by a skilled manager. We are able to cater bulk demands of our valued customers just because of our latest production unit as it is manufacturing the offered collection of product in a higher production rate.

Clients & Testimonials

Mr Parakramsinh Jadeja

- Jyoti cnc automation

A delightful visit to a well organized and presented company. A privilege to talk to such open and helpful person. System oriented firm. A fascinating experience. Impressed by the safety standard and operational quality. Fantastic House Keeping, well maintained equipment and floor, quality is visible in their process. We wish you all the success in the future and look forward to the opportunity for both companies to work together.

Mr Hasubhai & Mr Ashvinbhai

- Tirth Agro Pvt Ltd

We have been working with HIMALAYA for the past 8 years and we found them to be professional and effective in all that they do for us in relation to both Capital Projects and ongoing Maintenance. They provided an efficient and thorough service at a competitive price, which is important in these recessionary times. We intend to continue to work with HIMALAYA into the future as they have developed into an integral part of our refrigeration team.

Mr Parasbhai Doshi

Mr Keyurbhai Virani

- Balaji wafers pvt ltd

Thanks, Bhavesh for your invitation to visit this facility. Visit tells us we are in safe hands. Excellent facility and good awareness of quality. I really appreciated the dedication, commitments and above all the risk taking attitude of Bhaveshbhai. He has guts to dream and realize them too. My whole hearted best wishes for this entire group for a golden era in the years to come.

Mr Vallabh Patel

- Kataria Foods
