## About Us

To call pharmaceutical industry a place that lacks innovation, would be nothing but a disservice to this industrial sector that has sustained for long by providing effective healthcare solutions to people. Our company, Pharma Drugs & Chemicals is one such an innovative company that has emerged as one of the leading Exporters, Manufacturers and Distributors of undistinguished quality of Life Saving Drugs, Ointments, Cough Syrups, Tablets, Capsules, Injectables, Analgesics Medicine, Antibiotics, etc. With each passing year, we are becoming more advanced and dynamic in coming up with effective solutions. Headed by 'Mr. Arvind Kapila' (Director), our company is reaching heights of success by fulfilling medicinal requirements of customers. His distinct business knowledge and unparalleled skills has assisted us in offering quality-approved pharmaceutical products not only in India but also in international markets.

Years back, when we started our business unit with 30 products in our marketing agency located in (Chandigarh). In 2002, our medicinal company set up a pharmacy sector comprising a gamut of new 30 molecules in the market. We have 432 marketing professionals who lend their reliable support in carrying out seamless distribution and marketing process. We have secured a strong position in the North India and are listed as fast growing company. In compliance with WHO GMP certification, our pharmaceutical company has started Third Party Manufacturing Tie-Up with modern production facility. These facilities are used by reputed pharmacy organizations to manufacture their range.

We have been able to gather trust and loyalty of uncountable clients by adopting customer focused approaches. Apart from maintaining open business culture, our company offers simple payment options to customers. We share impressive communicative relationship with clients and keep them updated about new medicinal innovations. Our business unit lay special focus on quality of range and check offered produce stringently so that no inferior quality product reaches to client.
