## About Us

Founded in 2008, Namrata Power Systems has been at the forefront of the market with its extensive collection of power supply systems. We are known as a reliable supplier, trader, and wholesaler of Smart Online UPS, Emerson Industrial UPS, Three Phase UPS, APC Online UPS, and other items. We are associated with prominent UPS manufacturers who take strict quality control measures and supply remarkable products. These are quality-certified and provide reliable performance under various conditions. In addition to offering affordable products to our customers, we also offer maintenance and rental services for our UPS as a service provider.

Our main objective is to build long-term relationships with our clients, and therefore, we pay attention to achieving their complete satisfaction. We have a separate client service department to cater to clients. Our client service department resolves client inquiries, provides updates, and addresses concerns that may arise. We take a personalized approach to client servicing by taking initiatives to understand their requirements, objectives, and challenges.
