Automatic Ultrasonic Outside Ear-Loop Welding Machine (SE-UMM03)

Summary

The Automatic Ultrasonic Outside Ear-Loop Welding Machine use the original imported transducer / converter which with stable output performance, and quality spares, smart design which makes the operation much more convenient, Mainly used to the ear-loop welding for N95 masks such as cup type masks, dust-proof masks, duckbill masks, medical disposable masks and so on, with a high productivity and quality finished products.

Technical Data

Model	SE- UMM03
Voltage	220V-50/60Hz
Power	3kw
Frequency	20Khz
Size	2646x620x1750MM
Weight	600KG
Air Pressure	4-6KG/CM2
Capacity	45-55PCS/MIN

Functions and Features

- ✓ Smart design and easy for operation.
- ✓ Can welding the ear-loops for disposable masks, inner/outside ear-loop masks, cup masks, duckbill masks and other special-shaped masks.
- ✓ A group of two experienced workers can finish 10-12 pcs per minute.
- ✓ After finished the mask blank, then start to weld the ear-loop with manual, easy for operation, and the welding effect is beautiful.

Machine Details

Ear with welding: the use of high-pressure device to prevent deflection; titanium alloy welded joints, durability, and excellent welding results.

Material Material: imported high-quality steel and aluminum concentrate by CNC precision machining, attractive appearance, and more durable.
