About Us

In the competitive markets for industrial electronics, we, Alan Electronic Systems Pvt. Ltd., are a well established company with excellent growth and success rate. We have a good market share and specialization in providing products such as Electro Surgical Unit, CO2 Insufflator, Ultrasonic Surgical Generator, and many other products. We stepped into the medical division in 2004, after attaining tremendous growth, popularity and success in the competitive industrial market. We started our first product division with Surgical Diathermy of International Standard.

In just four years, we developed our excellent customers base with over 1500 satisfied loyal customers across the world.
