About Us

Stainless steel utensils are a major asset of a quintessential kitchen. These utensils are involved in multipurpose usages in many parts of rural and urban communities. Considering unending demand for such utensils for multitude uses namely gifting, cooking, etc., our 2010 born firm, **Vikas Metal Industries**, has come forth as a **manufacturer, trader** and **supplier** of steel kitchen utensils in India. Our company has expanded business through unrestrained supply of highest quality utensils that are neat and clean. These utensils are maintained in demanded specifications for meeting requirements of not only residential but industrial and commercial owners also. We suffice numerous customers requirements concerned with setting up kitchens.

We are providing our supreme designed gamut of Idli Maker, SS Round Belly Container, SS Bottle, etc, in multifarious shapes, patterns, styles and sizes so that customers can easily pick them for their frequent business or personal use. We have a team of learned quality enthusiasts who check every slot of product range post manufacturing for assuring end customers with respect to quality. Our manufactured and traded line is served all over marketplaces at affordable prices for making company reach to the heights of prosperity.

Vikas Metal Industries is meeting customers requirements for unique gamut of **kitchen utensils, such as Storage Dabba, Masala Dabba, Tiffin Carriers etc.**, for years. We are providing affordable yet beautiful line of stainless steel utensils in myriad of patterns and styles. Our company deals in a contrasting range of utensils for becoming the most sensible choice of Indian clients. We are preferred by many customers over counterparts because of our manufacturing ability to attend urgent requirements. Our company runs business from the lanes of **Vasai, Maharashtra** for sufficing buyers demand in the most swift manner.

Kudos To Indestructible Material

Agree or not, stainless steel as an indestructible material is making life of cookware and serving utensils much effortless for heavy duty and regular use. Having multiple strengths in the form of advantages such as non-reactive properties, glossy finish, easy to clean, even heat absorption, etc., this material is mainly used by us for producing majority of our products. We are understanding demand of high-quality steel products in the kitchen from generations to generations and for the same reason, keeping our efforts at max to offer simply that quality for which customers have no qualms.
