

Duracell AA Alkaline Battery Product Brochure

AA alkaline batteries designed to provide dependable everyday power for compatible household and electronic devices.

Product Description

Duracell AA alkaline batteries are compact cylindrical cells intended for everyday devices that use AA-size batteries. The product presentation features the familiar black and copper battery design and retail-style multipack packaging. These batteries are suitable for routine household, office and personal electronic applications.

Key Features

- AA size suitable for compatible battery-powered devices
- Alkaline battery technology for everyday power needs
- Compact design for convenient storage and replacement
- Suitable for a wide range of compatible consumer devices
- Retail multipack presentation for convenient stocking
- Black and copper Duracell branded battery design

Suitable Applications

Common compatible applications include remote controls, toys, flashlights, digital devices, wall clocks and other equipment designed for AA batteries. Check the device manufacturer's requirements before use.

Product Details
