PROFILE

Pranjal Polymers an ISO9001 – 2008 Certified Company, we wish to introduce ourselves as the manufacturers of all types of PTFE /Teflon products & safety products for Chemicals, Pharmaceuticals & Petrochemicals Industries, as per your dimensions, samples, drawings & specifications. Pranjal Polymers have been in the manufacturing business since 2006. Our experience has been taken us a long way in the field of PTFE/Teflon products & safety products manufacturing.

Our products are being used in Petrochemicals plants, Chemical & Pharmaceuticals plants, Mechanical shaft seals, Valves industries, Scientific glass industries, Chemical process pumps, Hydraulic & Pneumatic power Systems, Large scale & small scale Engineering units & allied Industries.

We pride ourselves on the ability to maintain to professionalism
While establishing a familiar atmosphere with our valued clients. We welcome
walk-in-inquiries & often obliged our customers with their urgent needs.

Yours Faithfully PRANJAL POLYMERS

Dhananjay Rahatwal. CEO

OUR PRODUCTS

FLANGE GUARDS:

- 1) HDPE FLANGE GUARDS.
- 2) PP FLANGE GUARDS
- 3) PP BOX TYPE FLANGE GUARDS.
- 4) PTFE FLANGE GUARDS.
- 5) SS304 / SS316 FLANGE GUARDS.
- 6) PTFE COATED FIBER GLASS FLANGE SHIELDS.
- 7) PTFE COATED FIBER GLASS FLANGE SHIELDS WITH TRANSPERENT COVER
- 8) EARTHING JUMPER (COPPER / ALUMINUM STRIPS TYPE)
- 9) EARTHING JUMPER (COPPER WIRE TYPE)
- 10) SS304 WITH PP FLANGE GUARDS.
- 11) FLANGE GUARDS (Poly Propylene) TRANSPERENT
- 12) PTFE COATED FIBER GLASS VALVES GUARDS
- 13) PTFE COATED FIBER GLASS LINED BELLOWS GUARDS.

PTFE/TEFLON PRODUCTS:

- 14) PTFE /TEFLON LINED BELLOWS / SEAL BELLOWS
- 15) PTFE /TEFLON REDY CUT GASKET / MILLED TYPE ENVELOPE GASKET
- 16) PTFE /TEFLON "O" RING.
- 17) PTFE /TEFLON PLUG SLEEVE
- 18) PTFE /TEFLON ROD / BUSH / SHEET/ WEDGE / TUBING
- 19) PTFE EXPANDED JOINT SEALANT TAPE / GASKET
- 20) FEP ENCAPSULATED "O" RING.

ENGINEERIN PLASTICS & SHEETS:

- 21) NYLON ROD
- 22) POLYURETHANE PIPES / POLYURETHANE ROD / POLYURETHANE SHEET
- 23) POLYPROPLENE ROD / POLYPROPLENE SHEET
- 24) HDPE SHEET /ROD
- 25) PVC SHEET / GASKET
- 26) FIBER BACKLITE ROD
- 27) SILICON SHEET / TUBING / TC GASKET
- 28) VITON SHEET / TUBING / TC GASKET
- 29) RUBBER SHEET / GASKET
- 30) PVDF ROD / SHEET
- 31) UHMPEW ROD / SHEET
- 32) SPIRAL WOUND GASKET
- 33) METALIC GASKET

UV RESISTANT HDPE FLANGE GUARDS

- MOC -UV Resistant HDPE Sheets.
- Warrantee: 24 months from the date of dispatched the material.
- It can be used in Acid/Alkali/Caustics/Hazardous Chemical flange joints.
- No effect of ultraviolet radiation.
- It can be used up to 85° C Temperature.
- It can be used for piping inside or outside of plant.
- •Flexible & reusable hence cost effective
- Easy to fix & remove
- Give effective performance.
- Do not require highly skilled manpower for fixing & removing

Unlike metal or other flange guards, these are semi transparent

Guard's leakage inside flange joint can be observed/checked

Without removing guard & timely action can be taken.

· Available in any size depending upon require-

PP FLANGE GUARDS

- MOC –Polypropylene Sheets.
- Warrantee: 12 months from the date of dispatched the material.
- It can be used in Acid/Alkali/Caustics/Hazardous Chemical flange joints.
- It can be used up to 85° C Temperature.
- It can be used for piping inside or outside of plant.
- •Flexible & reusable hence cost effective
- Easy to fix & remove
- Give effective performance.
- Do not require highly skilled manpower for fixing & removing

Unlike metal or other flange guards, these are semi transparent

Guard's leakage inside flange joint can be observed/checked

Without removing guard & timely action can be taken.

Available in any size depending upon requirement

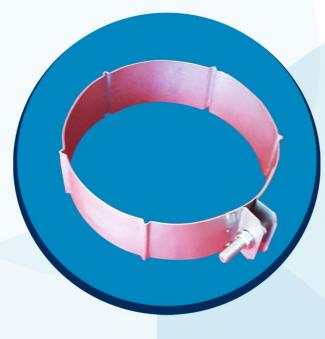

PP BOX TYPE FLANGE GUARDS

PP BOX TYPE FLANGE GUARDS is a simple molded part, to be used to fix on the flange Joints. . It is made of Polypropylene and is durable and has got resistivity for high pressures and operating temperature up to 90deg.C. It can be used in acids, for that matter on all solvents.

It can be used in Acid/Alkali/Caustics/Hazardous
Chemical flange joints.
Easy to fix & remove
Give effective performance.
Do not require highly skilled manpower for fixing & removing
Unlike metal or other flange guards.

SS304 | SS316 FLANGE GUARDS

We can use it in High Temperature/Solvent/Hazardous Chemicals pipe line flange joints.

- Protect the eyes & body of human when splash the hazardous chemical.
- Easy to locking & operating.
- It can be use up to 450° C temperature.

PTFE COATED FIBER GLASS FLANGE SHIELDS

- PTFE Fiber Glass Fabrics. Combines the properties of PTFE with the mechanical strength of glass cloth. It has a good chemical resistance.
- Operating Temperature -190°C to 260°C.
- · Good chemical resistance.
- Low coefficient of friction.
- Alkaline Resistant High Temperature Resistant Acid sprays protection.

SS304 FLANGE GUARDS WITH SILICON ELASTOMERS

We can use it in High Temperature/Solvent/Hazardous Chemicals pipe line flange joints.

- Operating temperature upto 170°c.
- Silicon is the good sealant
- Protect the eyes & body of human when splash the hazardous chemical.
- Easy to locking & operating.

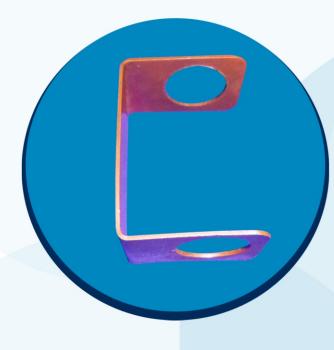

Bellow Guards

- •PTFE Fiber Glass Fabrics. Combines the properties of PTFE with the mechanical strength of glass cloth. It has a good chemical resistance.
- •Transparent cover for visible inspection, its MOC is Imported PVC.
- •Operating Temperature -70°C to 130°C.
- •Good chemical resistance.
- •Alkaline Resistant High Temperature Resistant Acid sprays protection.
- •UV and weather Resistance.
- •Do not require highly skilled manpower for fixing & removing.

 Easy to fix & remove.
- •Sizes available as per customers applications. its dimensionsrequired.

EARTHING JUMPER - STRIPS TYPE

We can use it in Pipe Lined Flange Joints in the Chemicals and Pharmaceuticals

Plants for good electricity flow.

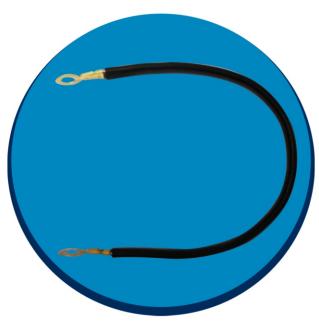

These are available in different lengths and diameters to serve diverse

applications and are made of premium quality. These metal and is used in electric

and electronics Compounds, so that it can flow electricity very easily as it is a

good conductor of electricity.

EARTHING JUMPER - WIRE TYPE

We can use it in Pipe Lined Flange Joints in the Chemicals and Pharmaceuticals

Plants for good electricity flow.

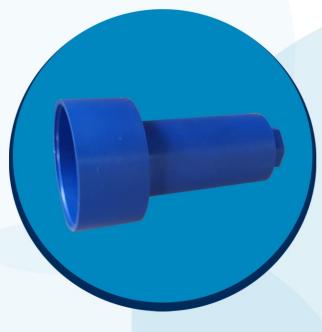

These are available in different lengths and diameters to serve diverse

applications and are made of premium quality.
These metal and is used in electric

and electronics Compounds, so that it can flow electricity very easily as it is a

good conductor of electricity.

THREAD PROTECTION CAP

Nut and Bolt Protection cap is made from LDPE. Many types of Nut & Bolt has in the chemical plants, It is defending the stud bolt threads and hex nuts from rust and corrosion.

available in all sizes for from 1/2" to 2".

PTFE LINED BELLOW

We offer qualitative assortment of Polytetrafluoroethylene (PTEE), which are widely used in national defense, atomic energy, petroleum, wireless, electric machinery and

chemical industry etc. Our range has the following properties:

- High temperature resistance
- Long term application temperature: 200 260°C
- •Low temperature: soft even at 100°C
- Corrosion resistance: resistance to all organic solvents
- Weather resistance: best aging life in plastic, high lubricant
- Smallest coefficient of friction in plastic: 0.04

PTFE MILLED TYPE GASKET

Polytetrafluoroethylene (PTFE). It is composed of elastic materials such as compressed asbestos sheet, rubber, etc. and PTFE envelope cover. These are successfully used in chemical plants, glass/glass lines equipment due to their high temperature, corrosion resistance. These are used in areas where an envelope of pure PTFE is required to protect the exposed joint edge from corrosive attack or for applications where hygiene conditions are essential.
