## SPOTLESS CYLINDER CLEANING SOLUTIONS

Octagon Solutions offers a range of advanced cylinder cleaning solutions designed to maintain optimal performance and longevity of gravure and flexographic printing cylinders.

The Spotless Cylinder Cleaning Solutions from Octagon Solutions is a specialized line of cleaning solutions designed to cater to the unique cleaning needs of gravure and flexographic printing cylinders. These products are formulated with precision to ensure optimal cleaning performance while maintaining the integrity of cylinder surfaces.

## Features

- Cylinder cleaning solution is an essential part of flexo and rotogravure printing.
- This includes removing of any ink build-up or debris from the surface of the cylinder to ensure that prints are of high quality.
- These cleaning solutions are used to remove ink, dirt, and other contaminants from the print cylinder. They are usually made from a combination of solvents, detergents, and other chemicals.

## Benefits:

- **Improved Print Quality:** Ensures clean cylinders for consistent ink transfer.
- **Extended Cylinder Life:** Minimizes wear and tear with gentle yet thorough cleaning.
- **Cost Savings:** Reduces downtime and labor costs associated with manual cleaning.
- **Environmental Responsibility:** Efficient water usage and optional recycling feature.

Ideal for printing industries using gravure and flexographic printing technologies.

## HOW TO USE

1. Shake well before use as it is an emulsion.
2. Apply Cell opener emulsion throughout the image cylinder.
3. Wait for 2- 3 minutes this will soften the deposits.
4. Rub the whole image cylinder with soft cotton cloth throughout.
5. Finally clean it with solvent, using the cylinder
