

Muffle Furnace

We are best manufacturing in india

Muffle Furnace

Product Details:

- 1. Minimum Order Quantity :- 1 Piece**
- 2. Brand :- Micron**
- 3. Max Operating Temperature :- 800-900 degree Celsius**
- 4. Type Of Furnace :- Fix**
- 5. Power Source :- Electric**
- 6. Material Loading Capacity (T) :- Muffle Furnace**
- 7. Melting Material :- Aluminium**

Muffle Furnace

Muffle Furnace

In a short span of time, We are acknowledged in the market as the leading names of Muffle Furnace. To manufacture these furnaces as per industrial standards, we source certified quality materials & components from trusted vendors of the market. Available in different specifications, these furnaces are widely used in pharmacy colleges, hospitals, and laboratories for fast heat-up applications. Impeccable efficiency, excellent durability, and sturdy structure are some of the remarkable features of our muffle furnace.

Features:

- Sturdy construction
- High operational fluency
- Low energy consumption
- Impeccable performance
- Digital Temperature Controller
- Double Walled Design
