

Top Cutter Blade

Our blades are designed to deliver high performance, precision, and reliability, making them ideal for businesses in the paper, packaging, and printing industries.

All shapes and dimensions are available according to the models of the machine and your requirements

How To Use?

We present Paper Slitter Blades at different cost and quality levels, running from fundamental economy to first class. The key distinction is the diamond substance that is the best and vital material cost in producing any cutting blade. Offered blades are fit for slicing through highly hard or rough material, for example, paper, asphalt, tile and more.

Features

- Sharp cutting edges for clean and precise cuts.
- Excellent wear resistance for long life.
- Suitable for cutting a variety of paper cores with consistent performance.
- Superior sharpness for high-speed cutting.
- Corrosion resistance ensures long-term reliability.
- High precision for seamless cutting operations.

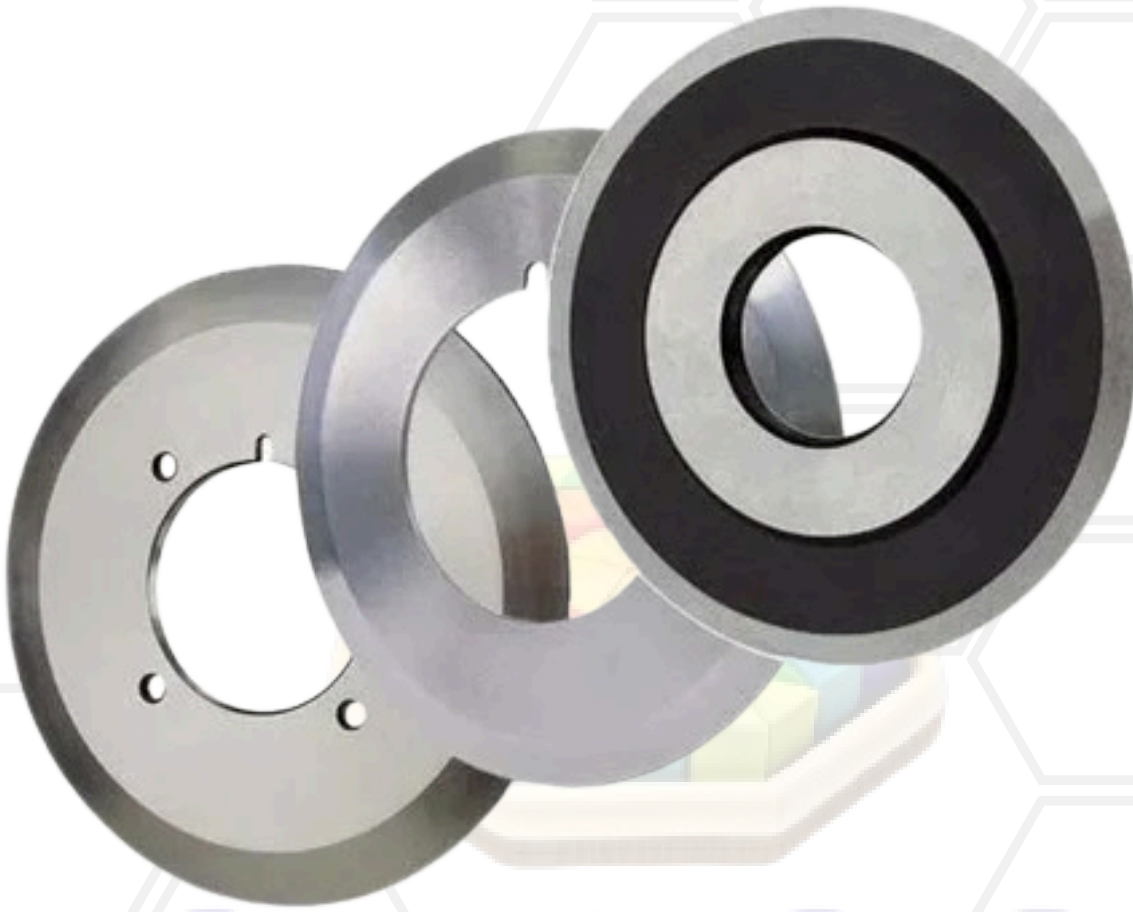

Applications

Designed for cutting cardboard, corrugated sheets, and other packaging materials.

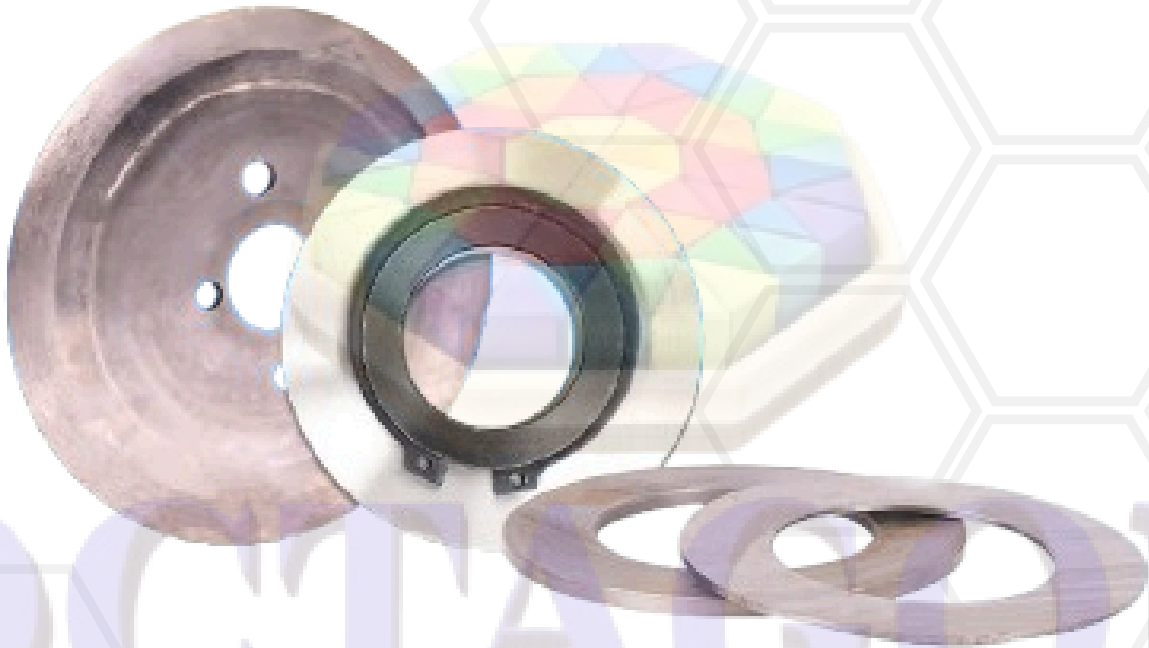

Product Details

- 1. Country of Origin :- Made in India**
- 2. Quality :- SS**
- 3. Diameter :- 4 inch, 5 inch, 7 inch, 9 inch**
- 4. Material :- High Carbon Steel, Stainless Steel, or Alloy Steel.**
- 5. Brand :- Octagon**
- 6. Color :- Silver Material**
- 7. Size :- All Size**
- 8. Diameter/Length: Available in multiple sizes to suit different machinery.**

Why Choose Our Cutter Blades?

- **Custom Solutions:** Tailored sizes and materials to fit your specific machinery and production requirements.
- **Durability:** Manufactured using advanced heat treatment processes for extended life.
- **Precision Engineering:** Ensures flawless and efficient cutting with minimal waste.
- **Affordable Pricing:** Competitive rates without compromising on quality.
- **After-Sales Support:** Dedicated team for technical assistance and quick resolution of queries.

Why Choose Us?

Expertise: Over 25 years of experience in the printing industry.

Innovation: Commitment to modern technology and continuous improvement.

Quality Assurance: Rigorous quality control processes to ensure product reliability.

Global Presence: Serving clients worldwide with 24/7 customer support.
