

Static Mixer Pipe Holder

We provide best service in india.

Static Mixer Pipe Holder

Product Details:

- 1. Diameter :- 1 inch**
- 2. Length :- 15 inch**
- 3. Shape :- Round**
- 4. Country of Origin :- Made in India**
- 5. Material :- Stainless Steel**
- 6. Design Type :- Customized**
- 7. Brand :- Octagon Solutions**

Static Mixer Pipe Holder

How To Use?

- A static mixer is a precision engineered device for continuous mixing of fluids. They consist of an arrangement of mixing elements installed in a pipe or duct. They function without moving parts and are used to achieve specific dispersion and mixing in a continuous process. They are capable of mixing materials with equal or different viscosities and volume flow rates. The fluid flow is provided by pumping.
