About Us

At Ashok Metal Works, we understand the importance of quality, which is why we fabricate heavy duty products for constructional and farming work complying with international standards of quality. We bank on extensive research and development and deeply analyze the current market requirements to produce a range of Tractor Dozer, New Holland Tractor Grader, Kubota Tractor Grader, Industrial Front End Loader and JCB Grader. No matter the client need for such products, we can create robust models to suit any constructional and farming application. As a manufacturer and exporter, we introduce a large variety in the aforesaid products without overlooking quality, safety and reliability parameters. We can also create bespoke product designs suiting simple, moderate to extreme applications.

We, Ashok Metal Works, design and quality test a range of Tractor Grader, JCB Grader and other products known for ease of use, reliability, operator safety and longevity. Besides, their impact resistant bodies can weather heavy duty use and are designed to get the job done right, time after time. We engineer the range at our Vidisha, Madhya Pradesh, India based plant to suit even the most demanding application needs of global multinational companies and government departments across markets. As we export the range to overseas countries, we manage affiliations with reliable transporters having excellent credentials in their field. With their association, we improve our delivery process to further stand out in the market with our timeliness and punctuality.
