

AUTOMOTIVE SILICONE O-RINGS

High-Performance Sealing Solutions for OEMs and Industrial Applications

Features

- High temperature resistance (-60°C to +230°C)
- Excellent UV, ozone & weather resistance
- Custom sizes/colors
- OEM & export quality
- Compression & injection molded

Specification	Details
Material	Silicone (VMQ)
Hardness	30–80 Shore A
Temperature	-60°C to +230°C
Colors	Red, Orange, Black, White, Blue
Applications	Engine, Radiator, AC, EV, Sensors

Applications: Automotive engines, cooling systems, HVAC, fuel systems, electrical connectors, water pumps, hydraulic systems and EV components.
