About Us

Fire safety is a concern for every building, be it commercial hubs or private spaces. In order to provide solution for fire hazards, we, Fire Engineering Technology, serve as a Manufacturer and Trader of Fire Suppression Systems. We are an ISO 9001:2015 certified company and the range we offer includes Automatic Fire Suppression System, Fire Protection System, Fire Fighting Equipment and Fire Hydrant Valve. In addition to these, we also act as Service Providers rendering services for Automatic Fire Suppression System Maintenance and Fire Suppression System Maintenance.

The offered products and services are best in quality and class. Our team designs and produces the equipment in such a manner that ensures complete safety of the end users who avail it. Furthermore, the installation and maintenance services we provide are rendered by our trained professionals who are experts in this field. We also offer Fire Safety Certification and Certificate Programs for fire-fighters and other personnel involved in the fire fighting industry and wish to enhance their skills. We issue professional certifications after completion of the safety programs.

Key Facts

Nature of Business	Manufacturer
Primary Competitive Advantages	hfc227ea gas flooding system, fm-200 fire suppression system, server room gas suppression system, kitchen fire suppression system, vehicle fire suppression system, fk-5112 fire suppression system, novac 1230 fire suppression system, gas flooding system, co2 gas flooding system, co2 fire extinguishing system
No of Staff	25
Year of Establishment	2014
OEM Service Provided	Yes
Monthly Production Capacity	500
Memberships	FSAI
ProductRange	hfc227ea gas flooding system, fm-200 fire suppression system, server room gas suppression system, kitchen fire suppression system, vehicle fire suppression system, fk-5112 fire suppression system, novac 1230 fire suppression system, gas flooding system, co2 gas flooding system, co2 fire extinguishing system
