# NR LIFE CARE

## Product Register with Product and Category Codes

1,411 distinct product listings numbered and coded across 10 commercial categories, with 19 entries held for product name review.

Use the serial number to locate an entry and the product code to identify its listing in enquiries, quotations and internal records.

## Code key

Product code NR-01-0001 means NR LIFE CARE, category 01, listing 0001 within that category. Category code C01 corresponds to category 01. C00 identifies entries requiring name clarification.

Keep assigned codes unchanged when adding products. Use the next unused number within the relevant category; do not reuse a discontinued code.

## Category codes and listing counts

| Code | Category | Listings |
|---|---|---|
| C01 | Active Pharmaceutical Ingredients | 598 |
| C02 | Hormones and Steroids | 193 |
| C03 | API Intermediates | 29 |
| C04 | Nutraceutical Powders | 115 |
| C05 | Food Ingredients | 118 |
| C06 | Industrial Chemicals | 84 |
| C07 | Vitamins | 88 |
| C08 | Veterinary Raw Materials | 33 |
| C09 | Chemical Powders | 62 |
| C10 | Pharmaceutical Materials | 72 |
| C00 | Product Name Review | 19 |

Counts refer to distinct listing names, not verified unique chemical substances. Repeated names differing only in capitalization or spacing are combined. Other wording, grades, forms and variants retain separate codes. A total of 1,818 product entries are represented; 407 repeated entries are consolidated. Category headings are excluded from the product count.

Categories are internal catalogue groups. Multiuse materials are assigned one primary group; category codes do not certify grade or intended use. Original product wording is retained. Clarify C00 entries before using their codes in orders.
