- Verifying all fabrication & erection welding is performed in accordance with the contract document & making necessary document.
- Check isometric drawing for correct revisions and spool fabrication

- 06 Project** :- DahejVijaypur Pipeline Project (DVPL-2)  
Laying of Gas Pipeline project (Project of 48" x 125 KM)
- Client** :- GAIL India Ltd.,
- PMC** :- Tractable Engineering Pvt. Ltd.,
- Duration** :- May 2010 to March 2012
- Designation** :- Sr. Engineer

#### **Duties and Responsibility**

- Material Inspection for incoming materials & review of material certificate to check compliance to project specifications.
- Receives all controlled Documents such as isometric drawing, method statement, site quality plan & inspection test plan.
- Prepare data book upon completion of job, knowledge of fire fighting CO<sub>2</sub> system / Hydrant System.
- Verify daily welding Production report and ensure compliance to NDT requirement.
- Attending daily/Weekly/Monthly meeting with client to clarify all technical issued.

- 07. Project** :- BijwasanPanipat Naphtha Pipeline Project (BPPL)  
Laying of naphtha Pipeline (Project of 10.75" x 110 KM)
- Client** :- Indian Oil Corporation Ltd.,
- Duration** :- From April 2009 to May 2010
- Designation** :- Sr. Engineer

#### **Duties and Responsibility**

- Material Inspection for incoming materials & review of material certificate to check compliance to project specifications.
- Receives all controlled Documents such as isometric drawing , method statement, site quality plan & inspection test plan.
- Prepare data book upon completion of job, knowledge of fire fighting CO<sub>2</sub> system / Hydrant System.
- Verify daily welding Production report and ensure compliance to NDT requirement.
- Attending daily/Weekly/Monthly meeting with client to clarify all technical issued.

- 08. Project** :- DahejUran Pipeline Project  
Laying of Gas Pipeline project (Project of 4" x 30 KM, 6" x 40 KM)
- Client** :- Gas Authority of India Ltd.,
- PMC** :- Tractable Engineering Pvt. Ltd.,
- Duration** :- March 2007 to April 2009
- Designation** :- Engineer

#### **Duties and Responsibility**

- Working as a site engineer pipeline
- Reporting to spread incharge.
- Looking after Exp. Pipeline Stringing, Mainline welding, coating etc.
- Fit up welding till backfilling.

- 09. Project** :- East west pipe line Project  
Laying of gas pipeline (Project of 30" x 2 KM Spur Line)
- Client** :- Reliance Gas Transportation Infrastructure Ltd.,
- Duration** :- July 2006 to March-2007
- Designation** :- Engineer

- 10. Organization** :- M/S New Line Build Cap (P) Ltd. (FAMILIAR AS PODDAR TYRE)  
**Duration** :- From January-2000 to June 2006  
**Designation** :- Maintenance Engineer

**Duties and Responsibility**

- This firm is making high Quality of Retrading Rubber
  - Maintenance of Kneedar, mixing Mill, Calender Extruder, Hydraulic Power Press Boiler & Compressor etc.
- 11.** Worked as production supervisor with M/S Dewan Enterprises Ltd., Partapur, Meerut Engaged Manufacturing in all type of cycles Rim. From FEB-1997 to Dec.-2000.

**EDUCATIONAL AND PROFESSIONAL CREDENTIALS**
