About Us

Rotech Engineers is a renowned and well-known manufacturer and supplier of products like Industrial Rotary Airlock Valves, Screw Conveyors, Ribbon Blenders, Pug Mills, etc. With state-of-the-art infrastructure and technology, our unit is outfitted with sophisticated machines and cutting-edge tools to meet industry application requirements. We have an extremely talented and professional team that works with great dedication to ensure timely project execution. Customers served by us till now are impressed with the quality delivered and have become loyal to us. Earning the trust of customers in a competitive market is a difficult job, and we are happy to state that we have been successful in attaining it. Our focus on customer satisfaction has resulted in our glorious success and a wide clientele. We also have a strong supply chain management system because of which we are able to deliver goods even to faraway places easily and within a stipulated time. In addition, we are associated with reliable vendors to procure quality raw materials that are worth using in the production process.

Food Processing, Mining, Pharma, Petro-Chemical, Plastic, Cement, Coal, Fly Ash, etc., are some key industries to which we are serving with our quality products including Screw Conveyors, Industrial Rotary Airlock Valves, Pug Mills, Ribbon Blenders and many more. All our customers are impressed with us and even promote our entity by word of mouth. We will continue to serve all our buyers in a highly professional manner and exceed all their expectations.

Rotech Engineers is located in Pune, Maharashtra, India, and has been active since 2016. Our expertise lies in making Steel Dampers, Reaction Vessels, Industrial Knief Gate Valves, Rotech Quick Cleaning Valves and a lot more products. Our company owns a modern production house that is well managed by a team of dexterous professionals. Further, we never make any compromises on the predefined norms, which enabled us to attain perfection in our offerings. We work in a systematic manner, following a transparent working approach, which helps us attain customer trust. We are also open to feedback and suggestions, as this helps us in our improvisation and growth.
