About Us

Covid-19 pandemic has taught us how important health infrastructure is for a nation. After this pandemic, hospitals and governments across different parts of the world have become more focused towards buying modern medical machines & instruments and strengthening their healthcare sector. To provide reliable medical equipment, we, RKGEE Medical Systems, work day and night. We are a well-recognized manufacturer, trader, importer and exporter of several medical equipment including CMS 600G ECG Machine, Electric ICU Bed, Infusion Set, Fetal Monitor, Maquet Servo I Ventilator, LED OT Light, Hospital OT Table and many other products. These are perfectly engineered and repeatedly tested for ensuring reliable usage, before adding in our portfolio.

We are capable of meeting individual as well as bulk demands of offered products, which makes us a successful retailer and wholesaler in the competitive market. Being a customer-oriented firm, we put extra efforts towards delighting customers and retaining them in our business. We offer them a choice of choosing products from available several models and options. Further, with our installation services of products, we satisfy customers and make them choose us. We provide installation services of offered medical equipment as a part of after sales support.
