About Us

Volts And Watts India is a Vadodara-based company that is rated high among the leading manufacturers, suppliers, and exporters of ceiling lights. Our product portfolio comprises Decorative Ceiling Lights, Corporate Interior Ceiling Lights, Double Layer Stretch Ceiling Lights, LED Display Ceiling Lights, Showroom Ceiling Lights, etc. These products are acknowledged by our clients for perfect gleam, less power consumption, and longer functional life. Our lights are made by experienced technicians possessing complete know-how in the electrical domain. All our team members are hard-working, dedicated, and efficient enough that helps us satisfy the customized demands of clients in bulk quantities within the promised time. Their efficiency is enhanced by seminars, workshops, and training sessions that are conducted under the guidance of Mr. Riyaz Bhai. He gives weightage to satisfying patrons beyond their expectations. His conscientious knowledge, experience, and skills have helped us in clinching a sterling position in the domain today.

Our business has always operated under the guiding idea of providing customers with items of the highest quality. Abiding by our work ethics, we accept the growing demands and requirements of our patrons to enlighten their premises with only best-in-class lighting solutions. For this, we work complying to international quality standards and make use of quality materials and progressive production techniques. Additionally, our expert quality inspectors evaluate the entire designing process, also testing each product on strict quality norms and parameters of designs, power consumption, and performance.

Being amongst the most reliable organizations in the market, our company has achieved unmatched success and recognition. We have become the best option for numerous clients in the national and international markets who want top-quality Corporate Interior Ceiling Lights, Decorative Ceiling Lights, Double Layer Stretch Ceiling Lights, LED Display Ceiling Lights, Showroom Ceiling Lights, and other products. Because of the salient features of these products, we have acquired high credibility in the market.
