## About Us

We, **Aaradhya Enviro Tech**, were incorporated in the year **2014** and from then onwards our sole purpose is to contribute towards the environment. Keeping this in mind, we bring forth our customers a range of high-tech **Water Treatment Plant, Effluent Treatment Plant, Biological Treatment, Waste Water Treatment Plant, Packaged STP** and allied plants. Located in **Vapi, Gujarat (India)**, our industrial plants are fabricated with the use of state-of-the-art technologies and by implementing modern technological methodologies.

Our comprehensive water treatment systems are meant for solving the problem of water contamination efficiently, which is why we believe it is one such technologies that the world needs. As a Manufacturer and Supplier, we strictly

We, **Aaradhya Enviro Tech**, operate from the prime location of Vapi, Gujarat, India and are counted amongst the reliable business enterprise. Right from the beginning our motive is to provide world-class industrial plants and systems for water treatment, biological treatment and allied purposes. The plant is engineered as per the advanced engineering standards and then fabricated with the use of optimum grade components and robust technologies. Our engineers with the quality inspecting professionals monitor the structure and functioning of the plant and only if it conforms to the quality standards it is sold to customers.
