BUILT FOR
LEGACY.

ABOUT US

For over five decades, Rekha Bright Steels has been a dependable name in the supply of **Bright Steel, Carbon Steel and Alloy Steel Bars** across India. What began as a brick-and-mortar trading business has steadily grown into a trusted partner for manufacturers, fabricators, and engineering industries that rely on our precision and consistency.

We specialize in supplying **Bright Bars and Black Bars in round, square, hex, and flat profiles**, catering to applications where material quality directly impacts the performance.

Our role is simple, to ensure that the right steel is available, when it's needed, without unnecessary delays or constraints.

Over the years our goodwill is built **through consistent quality, ethical practices, and long-standing relationships.**

We maintain ready inventory sourced from some of the most trusted names in the steel industry, including **JSW Steel, SAIL, VSP, Neco Jayaswal, Bhushan Steels** and many other reputed mills across India.

MISSION

To deliver superior steel solutions through consistent quality, assured supply and efficient services.

To set the benchmark in the steel industry by bringing together quality, reliability, and excellence under one roof.

VISION

VALUES

Excellent Quality Standards

Every bar supplied meets strict quality expectations, reflected in our next to none rejection rates at 0.1%.

Reliability in Supply

With ready inventory, we ensure our clients don't face delays that slow down their operations.

Ethical Business Practices

We align our operations with established industry practices and applicable government regulations, ensuring responsible, reliable, and compliant business conduct.

Relationships Over Transactions

We believe in clear communication, fair dealings, and building long-term relationships that create consistency and trust over time.

WHY REKHA BRIGHT STEELS?

NOT JUST STEEL. PRECISION TAILORED.

We go beyond standard supply by offering fully custom made steel solutions with wide range of 800+ SKUs across sizes, shapes and grades. We ensure every product aligns perfectly with your operational requirements, product quality and delivery timelines.

ISO 9001:2015

Ready Inventory

Immediate availability across sizes and grades reduces downtime.

Consistent Quality

Maintained through strict sourcing and selection standards.

Preferred by Industry Leaders

Registered vendors with some of the world's leading industrial and manufacturing companies, reflecting our reliability and consistent quality standards.

99.9% Acceptance Rate

Less than 0.1% rejection, reflecting dependable material quality.

Flexible Order Quantities

From small requirements to bulk supply.

Fully Custom Solutions

We work closely with clients to understand specific requirements and support custom grades, sizes, basis applications, ensuring the material aligns with the intended use.

AT A GLANCE

- 55+ Years of Industry Experience
- 99.9% Acceptance Rate
- Pan-India Supply Network
- Wide Range of Grades & Sizes
- Long-Term Industry Relationships

PRODUCT CATEGORIES

At Rekha Bright Steels, our product range is designed to support industries where accuracy, strength, and consistency are critical. From small-scale machining units to large industrial manufacturers, our inventory is built to meet diverse requirements.

ALLOY STEEL BARS

Our Alloy Steel range is suited for applications that demand high strength and durability.

Commonly used in automotive, aerospace, defense, and heavy engineering applications.

- o Bright Round Bars
- o Black Round Bars
- o Grades: SAE 4140, SAE 8620, EN24, 20MnCr5, 16MnCr5
- o Sizes: 20mm – 150mm

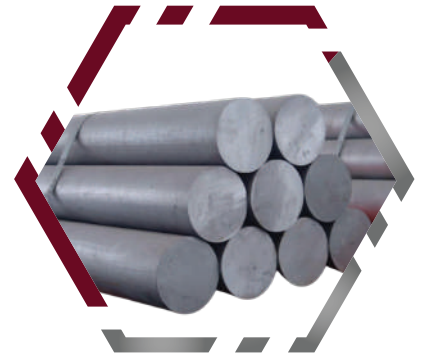

CARBON STEEL BARS

Our Carbon Steel bars are widely used in Forging, machining, and general engineering offering reliability across everyday industrial applications.

Ideal for industries that require consistent machinability and structural integrity.

- o Bright Bars
- o Black Round Bars
- o Sizes: 20mm – 150mm
- o Grades: MS, EN-8D, EN 9, EN1A Free Cutting leaded, EN 1A Free Cutting Non-leaded

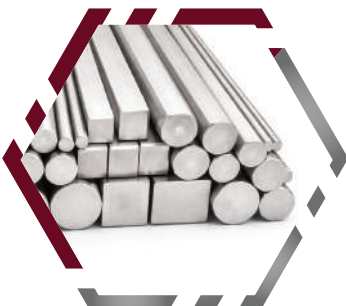

BRIGHT STEEL BARS

Our Bright Bars are built to support precision machining, fabrication, and high-accuracy component manufacturing.

These are commonly used in precision machining, fabrication, and component manufacturing.

- o Round Bars (3mm – 100mm)
- o Flat Bars (20x5 – 150x25)
- o Square Bars (6mm – 75mm)
- o Hexagon Bars (12mm – 110mm)
- o Grades: MS, EN-8D, EN1A Free Cutting leaded, EN 1A Free Cutting Non-leaded

We understand that in manufacturing, delays and inconsistencies cost more than just time. Our approach is built around:

Maintaining ready stock across 800+ SKUs

Ensuring quick response and dispatch

Supporting clients with practical, requirement based solutions

INDUSTRIES WE SERVE

Supporting Industries Where Precision Matters

Rekha Bright Steels supplies Bright, Carbon and Alloy Steel Bars to a wide range of industries where material **quality, consistency, and availability directly impact performance and timelines.**

Aerospace

Defense

Construction & Infrastructure

Automotive & Engineering

Industrial Manufacturing

Fabrication & Welding

Machinery

Energy Sector

Agricultural and heavy equipments
