## ABOUT VENUS

**VENUS HOME APPLIANCES (P) LTD.**, manufacturers of Venus Water Heaters for 60 years is a market leader and pioneer in the Water Heater industry. Venus is one of the leading brands of water heaters in India and stands for Quality, Reliability and Performance.

Appliances that provide a continual supply of hot water are called water heaters or Electric geysers. Venus Home Appliances is the leading manufacturer of water heaters and geysers in India. Venus has been providing a wide range of water heaters in India that include electric instant water heaters, electric storage water heaters, solar water heaters and heat pump water heaters. Venus Home Appliances strives to design, manufacture, supply water heaters and accessories to national/international standards. Venus has got ISO 9001 certification from BVQI and is ISO14001:2004 and BS OHSAS 18001:2007 certified; a measure of its commitment to quality.

## LARGEST EXPORTER

VENUS HOME APPLIANCES (P) LTD., manufacturers of Venus Water Heaters for 60 years is a market leader and pioneer in the Water Heater industry. Venus is one of the leading brands of water heaters in India and stands for Quality, Reliability and Performance. Venus water heaters have sleek exteriors that complement the performance.

With a Presence in more than 30 countries across the World, Venus Home Appliances is the No.1 in Exports with reference to the Water heater Industry.

\*Based on customs data

## NATIONAL & INTERNATIONAL CERTIFICATION

Winner of the 'National Award for Quality Product' in 2000 by Govt. of India

Twice winner of the 'Tamil Nadu Quality Award'

60 years market leader and a pioneer in the water heater industry

9001 | 14001 | 45001  
ISO 9001 & 14001  
Certification from BSI

## Enameling Process- Hi-Tech Plant

Porcelain Enamel Glass lined tanks are produced in a world-class fully automated plant in Venus using the best raw materials and the highest quality assurance practices.

### Stage 1 - FORMING:

Deep drawing of 1.8-2mm steel blanks to form lids in a heavy duty Hydraulic Press.

### Stage 2 - WELDING:

Welding of lids and shells in an automatic Plasma/MIG Welding Line. All welded tanks are tested immediately at 3 bars pressure; 100% leakage free.

### Stage 3 - PRE-TREATMENT:

Inner surface of the tank is blasted at high pressure in the shot blasting machine to remove any surface impurities and oxides.

### Stage 4 - ENAMEL APPLICATION:

Dry Powder Enamel is sprayed on the tanks by 2 robots. Automatic controls maintain a homogeneous coating thickness of 250µ across the surface of the tank.

### Stage 5 - FIRING:

Enamel coated tanks are fired inside the high temperature furnace at 830°C – 850°C. The enamel melts to fuse and bond with the steel to form a protective glass lining.

# UNIQUE FEATURES

## DURABILITY

Porcelain Enamel Glass Lined Tank

30% larger anode for longer Protection

Full face Gasket with Neck Protection

Zn-Ni coated fasteners 5X Rust Resistance

Double side enameling prevents rusting of flange and door plate

## PERFORMANCE

Porcelain Enamel Glass Lined Tank: Manufactured in a modern, automated plant using European Technology. Protects the tank from rust and corrosion.

100% pure copper tank: For long life and corrosion free performance.

Glass Lined Incoloy Heating Element: Withstands temperatures up to 1000°C. Long lasting even in hard water, reduces scale formation. Prevents premature element failure.

Glass Lined Double Ceramic Heating Elements: Shock-proof, hard water proof and long-lasting.

Hard water protection: Low density, Glasslined elements for long life in hard water areas.

8 bar pressure: Suitable for pressure pumps and multi-storey buildings.

Pressure Performance: with stands pressure upto 6.5 bar.

Flex Mount: Flexible mounting options (Horizontal Model) Wall/Floor mounting. Left/right side opening options available - Ideal for modern apartments.

## SAFETY

Multi-function valve: Acts as pressure release valve, non-return valve, drain valve, expansion valve and vacuum release valve.

Sacrificial Magnesium Anode: A special device to enhance the corrosion protection of the tank by means of "Cathodic action".

Triple Safety : Multi-function Safety Valve, Capillary Thermostat & Thermal cutout.

IPX4 :Resistant to water splashes from any direction.

## ENERGY SAVINGS

5 Star rating for more energy savings.

3cm Thick Polyurethane Foam (PUF) Insulation: Reduces heat loss and keeps water hot for much longer.

## DIGITAL

IoT Enabled: Manage your device worldwide through IoT-enabled functionality.

Wi-Fi Enabled: Set, Schedule & View at your convenience.

Smart mode: Energy saving mode with water temperature @ 45°C.

Digital Display: For visual indication of temperature.

Mobile Application control : One mobile device can control many heaters. Multi-user can control one heater.

Temperature Display : The display will show the real time temperature.

Vacation Mode: Safety feature for customers while leaving the house.

## ENDURANCE

10 Years\* Guarantee: On Copper tank and Porcelain Enamel glass lined tank (Splash Pro Smart and Splash Pro IoT Models only).

7 Years\*\* Guarantee: On Porcelain Enamel Glass Lined Tank.

4 Years\*\*\* Guarantee: On Heating Element.

## 5-Anti Corrosion Features

Ultimate Durability - Splash pro is designed for durability. With innovative anticorrosion features and hard water protection splash pro is the best among water heaters. Splash pro is built to last for years.

Porcelain Enamel  
Glass Lined Tank

30% larger anode  
for longer Protection

Full face Gasket with  
Neck Protection

Double side enameling  
prevents rusting of  
flange and door plate

Zn-Ni coated fasteners  
5X Rust Resistance

## Types of Heating Element

We use different types of heating elements in our water heaters. Which ensures hard water protection and shock protection. They are designed for reliable & energy efficient performance in all types of water conditions. We have higher grade heating elements for hard water areas to resist scale deposits & premature failure. There are 3 types of heating elements: 1. Ceramic Heating element, 2. Glass lined incoloy element, 3. Copper Heating element.

Ceramic  
Heating Element

Glass lined Incoloy  
Heating Element

Super Heavy Gauge  
Copper Element

## Scale Guard Technology

In Ceramic heating element, heat is transferred over a much larger surface area, which reduces the stress on heating element, lowers watts density/sq.cm and ensures less scale deposition on the heating element.

# WARMTH FOR LIFE

Venus water heaters are built with state-of-the-art technology and comes equipped with the most innovative features.

- Storage Water Heaters

- Instant Water Heaters

- Tankless Water Heaters

- Solar and Heat Pump Water Heaters

## Splash Pro IOT

Embrace the incredible potential of Splash Pro IoT-enabled water heaters to elevate your home's comfort, convenience, and energy efficiency. The smart home revolution has arrived, and with Splash Pro IoT water heater, you can be at the forefront of this exciting transformation. Whether you're seeking convenience, savings, or a greener lifestyle, our Splash IoT water heater your gateway to a future of intelligent, connected living. Embrace the IoT revolution today.

**IoT Enabled:** Control your Water heater from anywhere in the world

**Anti-bacterial Mode:** Water heating system that prevents bacterial growth and delivers pure water

**Smart Digital Display:** Precise temperature instantly on the Smart LED display

**Wi-Fi Enabled:** Set, Schedule & View at your convenience

**Mobile Application control :** One mobile device can control many heaters. Multi-user can control one heater

**Smart mode:** Energy saving mode with water temperature @ 45°C

**App sharing:** One Tap to share devices among family members

**Timer:** A suitable time and day can be set for the Heater to turn on and off.

**Vacation Mode:** Safety feature for customers while leaving the house.

**Hard Water Protection**

**Anticorrosion Features**

## Lava

Need hot water at the flick of a switch!!! Get hot water in an instant!!! The indicator lamps (green for heating and red for power) makes it convenient for use.

**100% pure copper tank:** For long life and corrosion free performance. Has single, high quality weld joints.

**Thermal Cutout :** Backup safety device cuts off power at 100°C. Prevents overheating.

Copper Heating Element

Capsule Polyurethane Foam (PUF) insulation

ABS Outer Body : Corrosion free. Shock proof.

Red - Power, Green - Heating

Multi-function valve

Pressure Performance: with stands pressure upto 6.5 bar.

## Quanta

The Quanta Instant Water Heater combines cutting-edge technology with user-centric design to provide an exceptional hot water solution. Whether you're upgrading your home or outfitting a new space, Quanta ensures that comfort, efficiency, and style are never compromised. Elevate your daily routine with the Quanta Instant Water Heater – where innovation meets Performance.

**High Precision Capillary Thermostat :** High precision capillary thermostat which cuts off the power as soon as it reaches the set temperature.

### SMART INDICATOR

Heating Ready to Use

**Colour Changing LED :** Green for Heating & Red for Ready to use

**SS 304 Inner Tank :** Stainless Steel for corrosion free performance.

**Copper Heating Element :** High quality copper heating element for long life and performance.

**Engineering Plastic Outer Body :** Corrosion free. Shock proof.

**Stem Thermal Cutout :** Backup safety device cuts off power to Prevents overheating.

**Pressure Release Valve :** Prevents build up of excessive pressure inside tank.

**Pressure Performance:** with stands pressure upto 6.5 bar.

## Heat Pump

Commercial Heat Pump

All in One Heat Pump

Heat Pump Swimming Pool

## Domestic Heat Pump

Venus introduces Heat Pump Water Heaters in India. Using renewable energy heat sources from the ambient air to heat water, these heaters can provide hot water round-the-clock and throughout the year in an energy-efficient and affordable way. Venus Heat Pump Water Heaters are the right solution for domestic hot water applications. Get non-stop hot water anywhere in the house while saving as much as 75-80% on your heating costs. A solitary heat pump installed anywhere in the house can supply hot water to all the bathrooms and kitchens.

### PRODUCT SPECIFICATIONS

### FEATURES

Porcelain Enamel Glass Lined Tank

Compressor

Intelligent Electronic controller

Low operating cost - more savings

High Energy Efficiency - COP of 4.2

Split system for flexible installation

Water circulation technology

5 Years GUARANTEE ON INNER TANK

## Environmental Friendly Initiatives

Venus Water heaters and innovation goes hand in hand. To add the feather in the crown venus has taken certain initiatives which are environment friendly. A Major move to move away from Thermocol packaging has been in process for quite a few years and the alternate solutions have been innovative on that front. The use of molded pulp buffers in domestic and export water heaters and Ceiling Fans, corrugated buffer (made of kraft paper) replacing Instapack buffer, Column airbags (which is bio-degradable and at the same time recyclable) for Instant Water heaters and 6 Ltr Storage Models Our Water heaters have CFC/HCFC Free Insulation that has low global warming potential and Zero Ozone depletion potential. This ensures no damage to the ozone layer and minimum impact on global warming.

### Low Global Warming

Environmental friendly PUF insulation material which are highly efficient and have impressively low GWP (Global warming potential) compared to traditional insulation materials thereby actively contributing to reduced greenhouse gas emissions & mitigating climate change

### Ozone Friendly Insulation

Using polyol and isocyanate in the production of polyurethane foam (PUF). Our PUF has zero ozone depletion potential (ODP), which ensures it does not harm the ozone layer

9001 & 14001  
ISO 9001 & 14001  
Certification from BVC

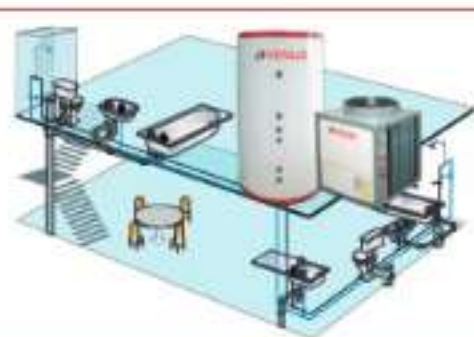

### New Generation Packaging

In our efforts to contribute positively to the environment, we have completely revamped our packaging solutions. We've transitioned away from conventional materials such as Thermocole (EPS) and have instead adopted a new range of eco-friendly alternatives. Our innovative packaging choices now include Moulded Pulp Buffer, InstaPack Buffer, Corrugated Buffer, and Column Airbag.

# Model Selection Guide

Usage / Application		Climate	
		Moderate	Extreme
<b>Kitchen</b> 		Minimum instant	Minimum 15 L
		Maximum 10 L	Maximum 35 L
<b>Bathroom Type 1</b> 		Minimum instant	Minimum 15 L
		Maximum 25 L	Maximum 50 L
<b>Bathroom Type 2</b> 		Minimum 50 L	Minimum 70 L
		Maximum 70 L	Maximum 100 L
<b>Bathroom Type 3</b> 		Minimum 100 L	Minimum 100 L
		Maximum 150 L	Maximum 150 L

Volume of mixed water at 40°C with cold water		
Capacity	15°C	25°C
10 L	20 L	27 L
15 L	30 L	41 L
25 L	50 L	67 L
35 L	70 L	95 L
70 L	140 L	189 L
80 L	160 L	216 L
100 L	200 L	270 L
150 L	300 L	405 L

## A Service that's full of warmth

Venus designs its products to meet demanding national and international standards. You can be sure that this drive for quality is matched by the customer satisfaction record that our after sales service strives for. "Service within 24 hours" is the promise of our committed service personnel. With more than 310+ service centers throughout the country, prompt, economical and reliable service will reach you, wherever you are.
